GOVERNMENT OF MADRAS.

REVENUE DEPARTMENT.

READ—again G.O., dated 23rd September 1889, No. 789, Revenue.

ABSTRACT.—Calling for further particulars regarding certain works included in the lists of works suitable for famine-relief in Kistna district.

READ—again G.O., dated 6th November 1889, No. 7146, Mis., Revenue.

ABSTRACT.—Recording G.O., dated 6th August 1889, No. 1736 L., Local and Municipal, forwarding to the Revenue Department, with remarks, statement showing the famine relief works proposed by the Local Boards and Municipalities in the districts of Ganjam, Vizagapatam, Godávari, Kistna, and Nellore for 1889-90.

READ—the following Proceedings of the Board of Revenue (Revenue Settlement, Land Records and Agriculture), dated 22nd March 1890, No. 88 :—

MR. CLOGSTOUN.

Read—the following letter from the Collector of Kistna, dated 11th March 1890, No. 1736 :—

In reply to Board's Proceedings, No. 3858, Mis., dated 30th September 1889, communicating Government Order, Revenue Department, on the list of works suitable for famine-relief in the district, I have the honor to report as follows :—

(*Para.* 1).—Works Nos. 3, 6, 11, 32, 33, 34, 36, 38, 47, 55 and 1, 2, 3, 4, 6, 8, 9, 10, 11, 12, 13, 14 and 15 (under works for which no estimates are given) are included in the list submitted by the President, District Board, Kistna.

2. (*Para.* 2).—The sea dyke must now be removed from the list of works, as the Superintending Engineer in his letter, No. 2627 K., dated 5th March 1890 (copy enclosed), has decided against it.

3. The railway works therein referred to have been omitted from the list submitted for 1889-90 as the extensions about to be undertaken by Government supersede them. A list showing the distribution of estimates among the taluks of the district is herewith submitted as directed.

4. A revised list of famine-relief works for 1889-90, has been sent, excluding the Professional Agency, Local Fund and Municipal works, in accordance with the latest instructions on the subject.

5. The rough estimate of works proposed by the Chairman of the Guntúr Municipality will be separately submitted.

ENCLOSURE.

From J. HANNAN, Esq., Superintending Engineer, II Circle, to the Collector of Kistna, dated Bezváda, 5th March 1890, No. 2627 K.

With reference to your letters Nos. 137, dated 4th January 1890, and 1323, dated 23rd February 1890, I have the honor to state that the sea dyke proposed by you is not in my opinion required in the interests of the cultivated lands. A cyclonic wave would spread over these lands and then return doing but little injury. A sea dyke such as you proposed should have openings in it where drains cross it. The cyclonic wave would make its way through such openings and, being concentrated at such points, its local effect at such places would, I imagine, be most disastrous. A dyke from Masulipatam to the confines of the Godávari would not, I think, guarantee Masulipatam from an attack from the south. The soil available for construction of such a dyke is the worst possible and it would be difficult and costly to maintain, if not altogether impracticable, and there is no certainty that it would not, even if kept up, give way in many places before a cyclonic wave. I am therefore of opinion that the dyke should not be constructed.

Resolution—dated 22nd March 1890, No. 88.

Submitted to Government with reference to G.O., No. 789, dated 23rd September 1889, Revenue.

2. Excluding the works mentioned by the Collector as having been included in the list submitted by him as President of the District Board, and excluding also the sea dyke along the Masulipatam bay and the railway works, the total cost of the Civil Agency works given by the Collector in his detailed list comes to Rs. 16,06,533 as shown below :—

		RS.
Bezváda		
Vissannapet		54,000
Núzvíd		18,000
Vinukonda		3,03,000
Narsaraopet		3,00,000
Sattenapalle		2,19,000
Bápatla		3,67,000
Répalle		1,62,500
Guntúr		76,000
		23,033
	Total ...	16,06,533

3. The above sum, at an average wage of annas $1\frac{1}{2}$ *per diem* will afford employment for one year to 3 per cent. of the population of the district, which was estimated at 1,548,480 in the census taken in 1881.

4. The revised list of works for 1889-90, received from the Collector, has already been submitted to Government with Board's Proceedings, No. 78, dated 18th March 1890.

(True Copies and Extract.)

(Signed) P. RAJARATNA MUDALIAR,
Secretary.

To the Secretary to Government, Revenue Department,
with one detailed list of works.

Copy to the Collector of Kistna.

1280/2

READ—also the following Proceedings of the Board of Revenue (Revenue Settlement, Land Records and Agriculture), dated 18th March 1890, No. 78 :—

MR. CLOGSTOUN.

Read—the following letter from the Collector of Kistna, dated 8th March 1890, No. 1622 :—

With reference to Board's Proceedings, No. 4827, Mis., dated 3rd December 1889, I have the honor to submit a list of famine-relief works for 1889-90 revised in accordance with the instructions issued therein.

2. All Professional Agency works and works relating to Local Funds and Municipalities have been excluded from the list, and the total estimate has therefore been greatly reduced.

3. An additional column has been opened to show the number of laborers for whom employment can be found for one year and the number noted against each item. The number of laborers entered in the last column is arrived at by calculating the wages at 2 annas *per diem* for each laborer.

4. No. 46 of the former list has been excluded from the list now submitted, as it is a Local Fund work, and an estimate of Rs. 1,000 provided for No. 51 referred to in paragraph 5 of the Board's Proceedings.

Resolution—dated 18th March 1890, No. 78.

The revised list of famine-relief works received from the Collector of Kistna for the year 1889-90 will be submitted for the information of Government.

2. The works proposed by the Collector consist principally of construction and repair of irrigation works. The estimated cost amounts to Rs. 2,99,233 as shown below :—

		RS.
Vinukonda taluk		1,60,000
Narsaraopet ,,		80,000
Palnád ,,		30,000
Guntúr ,,		21,233
Sattenapalle ,,		8,000
	Total ...	2,99,233

3. The above sum, at an average wage of annas 2 *per diem*, will afford employment for one year to only ·4 per cent. of the population of the district, which amounted to 1,548,480 persons in the census taken in 1881.

4. The Collector will be requested to state whether this sum cannot be further raised and whether Civil Agency works do not exist in other taluks of his district.

(A true Copy and Extract.)

(Signed) P. RAJARATNA MUDALIAR,
Secretary.

To the Secretary to Government, Revenue Department,
with one list in original.

Copy to the Collector of Kistna.

ORDER—dated 28th March 1890, No. 235, Revenue.

Miscellaneous.

The first of the Board's Proceedings read above gives the programme of works proposed for 1888-89. These figures are useless at this late date, and the Government will proceed to notice the proposals made in the second Proceedings which relate to the year 1889-90.

2. The following statement shows the estimates of the cost of Civil Agency works which could be started in the Kistna district in the event of the occurrence of famine :—

Civil Agency works.	Probable estimate. Rs.
Works proposed by the Collector	2,99,233
Do. do. District Board	15,31,298
Do. do. Municipalities	8,87,000
Total ...	22,17,531

3. These works would thus afford relief for one year to 3·14 per cent. of the population at an average wage of 2 annas *per diem*, or to nearly 4·2 per cent. of the population, the daily wage being reckoned at an anna-and-a-half.

In addition to these works, the East Coast Railway would also afford a field for labor.

4. The report called for in paragraph 4 of Board's Proceedings, dated 18th March 1890, No. 78, should be submitted at an early date.

5. The Chairman of the Guntúr Municipality is requested to expedite the submission of the report called for in paragraph 3 of G.O., No. 789, dated the 23rd September last.
