The estimate, if approved, may be returned to the C. A. for sanction and execution from the repair grant to his Division which amounts to Rs. 22,000.

As Rs 4,002 has appeared to have been spent on repairs to the buildings in 1888-89, the demand of Rs 4,000 in the current year is no doubt heavy. The L. A. does not report that the repairs are quite necessary, but simply states that the estimate has been prepared at the request of H. H. the Prince of Arcot. If approved, the C. A. may be directed to carry out only such repairs as are absolutely necessary.

The C. A.
should be asked
to report on the necessity
of the repairs.

Sir,

Enclosures.

With reference to Memorandum N^o 601 C dated 1st February 1890, I have the honor to report that the principal provisions in the Estimate submitted with my letter N^o 1564 dated 25th January 1890 for the Amir Isahak are for the Stable & Harness rooms. The present Prince unlike his predecessors has a fine stud of horses and good carriages and stalls hitherto unused and not in proper order have to be repaired & rendered water tight, these were old buildings constructed when the building was a Police Court.

2 The western road approach has not been repaired since the building was first occupied and is much in need of repair.

3 The entrance gates and guardrooms were never provided with doors. Doors are now provided

provided and are necessary.

h. The Estimate sanctioned in G.O.
No 2799 is dated 10th September 1888 was for repairs
to other portions of the Palace buildings.
