GOVERNMENT OF MADRAS.

PUBLIC DEPARTMENT.

READ—the following paper :—

From Brigadier-General M. C. FARRINGTON, c.b., Adjutant-General, to the Secretary to Government, Military Department, dated Ootacamund, 24th February 1890, No. 408-N.A.

I have the honor, by desire of the Commander-in-Chief, to forward, for the information of Government, letter, No. 3769, dated 10th instant, from the Superintendent of Pensions, submitting a report regarding the employment of pensioned soldiers of the Madras Army in civil capacities for the period between April and September 1889.

2. I am to request that the report, now submitted, may be printed and circulated in the Public Department.

ENCLOSURES.

From Lieutenant-Colonel S. L. HUNT, Superintendent of Pensions, to the Adjutant-General, Ootacamund, dated Fort-St. George, 10th February 1890, No. 3769.

I have the honor to forward, for the information of His Excellency the Commander-in-Chief, a report and return regarding the employment in civil capacities of pensioners of the Madras Native Army.

Report by Lieutenant-Colonel S. L. HUNT, Superintendent of Pensions, on the employment of pensioners of the Madras Native Army in civil capacities, agreeably to the scheme promulgated by His Excellency Sir Frederick Roberts, Bart., G.C.B., G.C.I.E., V.C., late Commander-in-Chief, Madras Army.

FORT ST. GEORGE,
10th February 1890.

The Superintendent regrets to have to bring to notice, that in consequence of the very lax manner in which employment returns have been compiled and sent in from a great number of pension stations for some time past, serious discrepancies have arisen, and which have now been brought to light by the introduction at the Head Quarter office of a new system of checking such returns. Thus in the report, dated the 18th June 1889, there were shown 2,639 pensioners as remaining in employment on the 31st March 1889, after the scheme had been in work for four years and a quarter, whereas 486 pensioners were wrongly included in that number, partly owing to the officers in charge of pensioners not having from time to time intimated to this office the cessation of employment of 322 pensioners, and partly owing to 164 pensioners who found employment for themselves prior to the introduction of the scheme having been treated as newly employed pensioners. Thus the number of employed pensioners on the 31st March 1889 in the above report should have been only 2,153 men under the new conditions, instead of 2,639 as above mentioned.

2. Between April and September 1889, a period of six months, employment has been found for 560 pensioners, which added to the 2,153 employed pensioners alluded to in the preceding paragraph, gives a total of 2,713 pensioners.

3. Of the above number (2,713), 332 are reported as having voluntarily resigned employment, 52 as having been thrown out on reduction, 18 dismissed for negligence of duty, disobedience of orders, &c., and 23 died, leaving thus on the 30th September 1889 a total number of 2,288 pensioners employed under the new conditions.

4. In the 868 pensioners who remained in employment on the 31st March 1889 (*vide* last report) which employment they had found for themselves prior to the introduction of the new

GOVERNMENT OF MADRAS.

PUBLIC DEPARTMENT.

READ—the following paper:—

From Brigadier-General M. C. FARRINGTON, C.B., Adjutant-General, to the Secretary to Government, Military Department, dated Ootacamund, 24th February 1890, No. 408-N.A.

I have the honor, by desire of the Commander-in-Chief, to forward, for the information of Government, letter, No. 3769, dated 10th instant, from the Superintendent of Pensions, submitting a report regarding the employment of pensioned soldiers of the Madras Army in civil capacities for the period between April and September 1889.

2. I am to request that the report, now submitted, may be printed and circulated in the Public Department.

ENCLOSURES.

From Lieutenant-Colonel S. L. HUNT, Superintendent of Pensions, to the Adjutant-General, Ootacamund, dated Fort St. George, 10th February 1890, No. 3769.

I have the honor to forward, for the information of His Excellency the Commander-in Chief, a report and return regarding the employment in civil capacities of pensioners of the Madras Native Army.

REPORT by Lieutenant-Colonel S. L. HUNT, Superintendent of Pensions, on the employment of pensioners of the Madras Native Army in civil capacities, agreeably to the scheme promulgated by His Excellency Sir Frederick Roberts, Bart., G.C.B., G.C.I.E., V.C., late Commander-in-Chief, Madras Army.

FORT ST. GEORGE,
10th February 1890.

The Superintendent regrets to have to bring to notice, that in consequence of the very lax manner in which employment returns have been compiled and sent in from a great number of pension stations for some time past, serious discrepancies have arisen, and which have now been brought to light by the introduction at the Head Quarter office of a new system of checking such returns. Thus in the report, dated the 18th June 1889, there were shown 2,639 pensioners as remaining in employment on the 31st March 1889, after the scheme had been in work for four years and a quarter, whereas 486 pensioners were wrongly included in that number, partly owing to the officers in charge of pensioners not having from time to time intimated to this office the cessation of employment of 322 pensioners, and partly owing to 164 pensioners who found employment for themselves prior to the introduction of the scheme having been treated as newly employed pensioners. Thus the number of employed pensioners on the 31st March 1889 in the above report should have been only 2,153 men under the new conditions, instead of 2,639 as above mentioned.

2. Between April and September 1889, a period of six months, employment has been found for 560 pensioners, which added to the 2,153 employed pensioners alluded to in the preceding paragraph, gives a total of 2,713 pensioners.

3. Of the above number (2,713), 332 are reported as having voluntarily resigned employment, 52 as having been thrown out on reduction, 18 dismissed for negligence of duty, disobedience of orders, &c., and 23 died, leaving thus on the 30th September 1889 a total number of 2,288 pensioners employed under the new conditions.

4. In the 868 pensioners who remained in employment on the 31st March 1889 (vide last report) which employment they had found for themselves prior to the introduction of the new

conditions, 186 pensioners who had ceased to be employed, were erroneously included in consequence of the cessation of their employment not having been reported to this office by their paying officers. On the other hand, 164 pensioners who found employment prior to the introduction of the scheme (*vide* paragraph 1 of this report) have since been found out as having been wrongly included in the number of pensioners employed under the new conditions. Thus the total number of pensioners who had found employment prior to the introduction of the scheme and who remained in employment on the 31st March 1889 should have been $682 + 164 = 846$ men, instead of 868 as erroneously stated in the last report.

5. Of the above number (846), only 781 pensioners remained in employment on the 30th September 1889, showing thus a decrease of 65 pensioners since last report, and which number is accounted for as follows:—

Voluntarily resigned ..	46
Thrown out on reduction ..	8
Dismissed ..	3
Died ..	10
Total ..	65

Thus the number of pensioners employed on the 30th September 1889 stood as follows:—

Pensioners employed under the new conditions ..	2,288
" employed prior to the introduction of the scheme ..	781
Total ..	3,069

6. The Superintendent has now introduced into his office a system of double check upon station registers which, he trusts, will effectually prevent any mistakes occurring in future; and he proposes to submit periodically a statistical statement, showing the percentage of pensioners employed at each station, and giving a rough estimate of the saving to Government thus effected half-yearly in the shape of rice-compensation—*vide* statement attached.

7. The Superintendent, during his recent inspections of the Pension offices at Tinnevely, Madura, Trichinopoly and Cuddalore, noticed with regret that at Trichinopoly the number of men employed has not increased since the inspection of that office in 1886; while at Tinnevely, Madura and Cuddalore, there has been, during the last two or three years, a falling off in the number of employed pensioners, as will be seen from the following statement:—

Stations.	Date of previous inspection.	Number of men then employed.	Number employed, November 1889.
Trichinopoly ..	October 1886 ..	123	123
Tinnevely ..	March 1887 ..	66	57
Madura ..	October 1887 ..	78	77
Cuddalore ..	" 1886 ..	38	28

During the past two-and-a-half years, the increase in the number of pensioners employed throughout the Presidency generally has been considerable, and the Superintendent can but arrive at the conclusion that in the stations now alluded to, caste prejudices have had a great deal to do with the apathy shown by Native officials in forwarding the scheme. At Cuddalore Mr. P. A. Cole, who has lately assumed charge of the pension office at that station, has since the late inspection taken active steps to promote the scheme throughout his district, but at the other stations enumerated, the interference of Government would doubtless have a most beneficial effect.

8. As stated in the previous report, application for the services of pensioners should be made to the different officers in charge of pensioners, of whom there is one in all the chief towns in the Presidency—*vide* pages 176 and 177, Madras Quarterly Army List—and any particular information on the subject will, on application, be supplied by the Superintendent of Pensions, Fort St. George.
