GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Establishment.

READ—the following papers:—

From the Superintending Engineer, V Circle, dated 22nd October 1889, No. 4812.
" " V " " 13th November " " 5333.

From Colonel W. H. BURTON, R.E., Superintending Engineer, V Circle, to the Chief Engineer, Public Works Department, dated Pálár Anicut, 10th March 1890, No. 7784.

With reference to your memorandum No. 480 C., dated 28th January 1890, I have the honor to state that the establishment of the Cuddalore bridge works is already reduced by the transfer of Assistant Engineer Mr. Subrahmanya Pillai and his lascar to the VI Circle, and I am unable to recommend any further reduction in the Bridge Works office and petty establishments for next year.

2. The Executive Engineer, South Arcot, states that he has already given explanation as to the necessity for the temporary establishment referring to that conveyed in para. 4 of my letter, No. 516 A. of 26th April 1889, and adds that the works in his office is not light, but, on the contrary, is always very heavy, so much so, that the present permanent establishment is inadequate to cope with it; that if the temporary establishment, which is the least that can be asked for with due regard to economy, is not allowed, it will be quite impossible to get through current work without considerable arrears and that the services of the temporary establishment are absolutely required for the proper efficiency of his office.

3. The temporary establishment at the Mount is urgently required: the Executive Engineer is quite unable to reply to scarcely any thing at present, but after the separation of the Military Works in March, if the temporary establishment is left, things will perhaps mend in that office. I would therefore recommend its retention.

ENCLOSURE.

ORDER—dated 28th March 1890, No. 994 W., Public Works.

With his letters above recorded, the Superintending Engineer, V Circle, submits, for sanction, proposition statements of temporary establishments required during 1890-91.

2. *Chingleput division.*—The Superintending Engineer applies for one overseer, four clerks, one lascar, one attender and one draftsman for the division. The overseer together with the clerk and lascar required for him should not have been included in the statement, as separate provision has already been made for the overseer, and the Superintending Engineer can himself appoint the establishments required for overseers under the orders communicated with G.O., No. 537 W., dated 16th February 1888. The establishment applied for being excessive, the Government is not prepared to sanction more than one clerk, V class, 1st grade, and one draftsman on Rs. 20 per mensem.

3. *South Arcot division.*—The Superintending Engineer applies for one clerk and one draftsman, but these men cannot be sanctioned as they are not considered necessary.

4. *Cuddalore Bridge Works Sub-division.*—The establishment applied for consists of two clerks, one draftsman, one messenger, one storekeeper, one cashier, and five lascars. As the demand is excessive in consideration of the reduced grant for bridge works during 1890-91, one cashier and two lascars have been disallowed. The lascar required for the overseer may, if necessary, be sanctioned by the Superintending Engineer with reference to G.O., No. 537 W., dated 16th February 1888.

5. A revised statement has been prepared with reference to the foregoing remarks and is sanctioned.

6. The sanction accorded in para. 5 of these Proceedings has been registered as Provincial No. 67 W. of 1889-90, and classified as Establishment, Temporary.

Temporary Establishment

Passing orders on proposition statements of — required during 1890-91 in the V Circle.

994
4

C.N.o 2.6.11.

Note

The accompanying letter from the Supt.g Engineer V Circle is a reply to this office Memo No. 480 C, dated 28th January 1890, in which the Supt.g Engineer was requested to revise the statements submitted with his No.s 4812, and 5333, in view to the reduction of the temporary establishments thereon applied for. No revised statement has, however, been submitted, the letter under reference merely affording explanation as to the necessity for the temporary establishments required in the South Arcot, Chingleput, and Cuddalore Bridge Sub-Division. The Presidency Division and Superintending Engineer's

Engineer's office, have been omitted, most probably because the Supty Engineer has given notice to the temporary hands in his office, that their services will no longer be wanted, and because the Provisionary Division has been transferred to the Military Works Deptt. Only the establishments required for the Chingleput, South Arcot, and Cuddalore Bridge Works Division therefore remain to be scrutinized.

Chingleput Division

With regard to this Division the Supty Engineer remarks as follows:—

"The temporary "establishment at the "mount is urgently required, "the Executive Engineer "is quite unable to reply "to scarcely anything at "present, but after the "separation of the Military "works in March, if the the temporary "establishment is left, "things will perhaps "mend in that office. "I would therefore — " "recommend its retention.

The present scale consists of 1 overseer, 4 clerks, 1 draftsman, 1 Cascan and 1 allender, making a total of 8 Employés at a cost of Rs 164 per mensem, or Rs 1,932 per annum. The overseer has already been provided for, and as the Supty Engineer can himself sanction the clerk and Cascan required for the overseer, they should not have been included in the statement. An allowance of Rs 5 per mensem, was entertained in 1858, for sorting old village maps and records. — Provision for the man's retention has been made, and sanctioned yearly ever since then, as the grounds on which his employment was at first permitted, have been altogether lost

lost sight of. The same thing may be said of the peculiar position of the temporary establishment — sanctioned year after year. At the time the application is made, some reasons are advanced for the Entertainment of the temporary hand. After a short time these reasons are forgotten, and then the sanction

[illegible] from year to year [illegible]

[illegible] provided for [illegible] transfer [illegible] the proposed [illegible] the Assistant [illegible] the Draft [illegible] the establishment [illegible] the Superintendent [illegible] the Draft Establishment [illegible] in this Division. Apart from the reasons urged by the Superintending Engineer [illegible] there seems [illegible] be found in para 5 of Govt from the Supdg Engineer V Circle, dated 26th April 1889, read in G.O. no 1471 W, dated 4th June 1889 (vide original), and are not worth consideration. The establishment is considered superfluous, and should be disallowed.

Cuddalore Bridge works:

The Superintending Engr states that he is unable to recommend any further reduction in the bridge works office and petty establishments for the following reasons:-

"The establishment
"of the Cuddalore Bridge
"works is already reduced
"by the transfer of
"Assistant Engineer Mr
"Subrahmanya Pillai,
"and his Lascar, to the
"VI Circle, and I am
"unable to recommend
"any further reduction."

The transfer of the Assistant Engineer and his Lascar does not, however, in any way affect the reduction of office and petty establishment. The establishment

establishment applied for, for the bridge works consists of 11 men, viz 2 clerks, 1 draftsman, 1 messenger, 1 storekeeper, 1 cashier, and 5 lascars. It is proposed to disallow 2 lascars, and 1 cashier on the following grounds. The Assistant Engineer, and his lascar having been transferred, no provision should be made for the lascar as had been done. The Supdg Engineer can himself sanction the lascar required for the overseer. The Cashier was allowed last year on the consideration that so large a grant as Rs 2,25,000 had to be paid away from time to time, but as the grant for next year will only amount to Rs 64,000 it does not seem necessary to sanction the further employment of a separate man for the work.

The establishment as applied

applied for, for 1890-91, is exactly the same as that applied for in 1889-90, although the Superintending Engineer was informed in the concluding portion of para 4 of G. of I. No. 1471 W, dt. 4th June 1889 (passing orders on Statement of temporary establishment for 1889-90) that "the Government are not satisfied with the reasons advanced for their retention, and pass them for the present year with reluctance. Arrangements must be made to "for a large reduction before 1890-91."

The Hon'ble Mr. Stokes remarked, as follows, on the draft order submitted to him with last year's application from the Superintending Engineer.

"There is no attempt to "show that this establishment is necessary, and "it seems to me to be on a "very extravagant scale. "I will not sanction it as "it now stands. The Supdg "Engineer's, and Presidency "Division establishments

were

"were questioned when
"first sanctioned for
"6 men, and I don't find
"anything to show why
"they have been kept on".

"These reasons are
"merely avocations of the
"necessity, and statements
"that with out these men
"the work will fall into
"arrears. I don't consider
"such statements amount
"to reasons. However, I
"will pass on this occasion,
"but I expect that in 1890-
"91, there will be a large
"reduction on these
"temporary establish-
"ments which have in
"my opinion been hitherto
"allowed on inadequate
"grounds."

The establishments applied for cost as follows:—

	Per mensem	Per annum
Chingleput	60	720.
South Arcot	45	540.
Cuddalore & Bridge works	167	2004
	272	3,264

If the proposals contained in this Note are approved and carried into effect, the temporary establishments for these Divisions will

will stand thus:—

	Per mensem	Per annum
Chingleput	35	420
South Arcot	"	"
Cuddalore & Bridge works	128	1,536.
	169	1,956

and a saving of Rs 109 per mensem, or Rs 1,308 will be shown.

The Honorable Member having expressed a wish that a large reduction should be made in the temporary establishments for 1890-91, the above proposals are submitted for orders, with the remark that the reasons assigned amount in reality to nothing more than ~~grounds~~ avocations, and do not in any appreciable degree justify their acceptance.

Maj 1913

For orders

Cr

19-3-90

Ft. V Circle.

The revised scale, as shown in this note can be sanctioned.

It must be pointed out to the S.E. that he can himself sanction, when necessary, the temp. establishment I mark under a Temp. Order - G.O. 537 W of 16th Feb 00

The chief order should compare the demands of the S.E. with the scale & be sanctioned.

No. 7284

From Colonel R. H. Barton R.E.
SUPERINTENDING ENGINEER, V CIRCLE,

To THE Chief Engineer
P.W. Department

SIR,

Enclosures.

With reference to your Memorandum No. 4800 dated 28th January 1900 I have the honor to state that the Establishment of the Cuddalore Bridge Works is already reduced by the transfer of Assistant Engineer Mr. Subrahmanya Pillai and his Lascar to the 6th Circle and I am unable to recommend any further reduction on the Bridge Works Office and Petty Establishments for next year.

2. The Executive Engineer South Arcot states that he has already

for the Temporary Establishment
referring to that contained in para
4 of my letter No 516 A of 26th April
1889 and adds that the works in
his Office is not light but on the
contrary is always very heavy, so
much so, that the present permanent
establishment is inadequate to
cope with it; that the Temporary
Establishment, which is the
least that can be asked for with
due regard to economy, is not allowed,
it will be quite impossible to get through
current work without considerable
arrears and that the Services of the
Temporary Establishment are abso-
lutely required for the proper ef-
ficiency of his Office.

3. The Temporary Establishment
at the Mount is urgently required
the Executive Engineer is quite unable

PROCEEDINGS OF THE MADRAS GOVERNMENT.

READ the following

From the Supdg Engineer V Circle, No. 4812, dated 22nd October 1889.

From the Supdg Engineer V Circle, No. 5,333, dated 15th November 1889.

From the Supdg Engineer V Circle, No. 1784, dated 10th March 1890.

With his letters above recorded, the Supdg Engineer V Circle submits for sanction proposals & statements of temporary establishments required during 1890-91.

2. Chingleput Division

The Superintending Engr applies for 1 overseer, 4 clerks, 1 cashier, 1 attender and 1 draftsman for the Division. The overseer together with the clerk and cashier

should not have been included in the statement, as separate provision has already been made for the Overseer, and the Supty Engineer can himself appoint the establishments required for overseers under the orders communicated with G.O. No. 537 W, dated 16th February 1888.

The establishment applied for being excessive, the Govt is not prepared to sanction more than 1 clerk Vth class 1st grade, and 1 draftsman on Rs 20 per mensem.

3. South Arcot Divn

The Supty Engineer applies for 1 clerk and 1 draftsman, but these men cannot be sanctioned as they

4. Cuddalore Bridge Works Sub-division

The establishment applied for consists of 2 clerks, 1 draftsman, 1 messenger, 1 storekeeper, 1 cashier and 5 lascars. As the demand is excessive in consideration of the reduced grant for bridge works during 1890-91, 1 cashier and 2 lascars have been disallowed. The lascar required for the onward may, if necessary, be sanctioned by the Supty Engineer with reference to G.O. No. 537 W, dated 16 February 1888.

5. A revised statement has been prepared with reference to the foregoing remarks and is sanctioned.

6. The sanction is accorded in lieu

has been registered
