For the reasons given in my letter, dated 15th October 1888, No. 618, in Board's Proceedings, Mis. No. 6481, dated 31st October 1888, I do not agree with Mr. Garrett.

3. I return the plan received with Board's Proceedings, No. 967 R., dated 22nd March 1889.

From the plan submitted it would appear that the Tahsildar's Court will be faced at a distance of 30 feet by the Sub-Registrar's office. It was this objection which was supposed to have necessitated the change in the standard plan. The Collector is requested to report whether he intends the standard plan to be followed or the changes proposed in 1885 to be made.

(3) From the Collector of Tanjore, dated 14th August 1889, No. 30 C.-B. & G.

In reply to your reference on General Register No. 1635 of 1889, I have the honor to forward a copy of letter, No. 2914, dated 2nd August 1889, from the Executive Engineer, Tanjore, and to state that I concur in the view expressed therein. I do not see what advantage would be gained by altering the plan in the manner suggested in 1885.

Enclosure.

From the Executive Engineer, Tanjore Division, to the Collector of Tanjore, dated 2nd August 1889, No. 2914.

In reply to your letter, No. 4326, dated 30th July 1889, I have the honor to inform you that I consider the site shown in the plan already submitted the best which a Taluk Cutcherry built after the standard design could occupy outside the jail compound.

2. Owing to the very small space available, it would be impossible to choose a site against which no objections could be urged.

Resolution—dated 27th August 1889, Mis. No. 5194.

Submitted to Government with reference to G.O., dated 27th December 1888, No. 7777. The space available for the Kumbakónam Taluk Cutcherry is so small that, in whatever way it is built, there will be some well grounded objections raised. As the Collector's proposal stands, it is open to two objections, first that the Tahsildar's office will be fronted at 30 feet by the Sub-Registrar's office and, secondly, that the Sub-Collector's office will be close to the back of the Sub-jail. But if the position is reversed, the Tahsildar's office will be close to the Sub-Collector's office and this would be probably more objectionable to the Sub-Collector than the other arrangement. The Tahsildar's office is constantly surrounded by witnesses and petitioners whose talk would seriously interfere with work in the Sub-Collector's office. As to the plan the Collector proposes, the only inconvenience the Sub-Collector will suffer will be the contiguity of the Sub-jail prisoners, and as regards them he can make arrangements that they shall work at the back of the Taluk office away from his own room. The Board, therefore, support the Collector's present proposal.

Order—dated 19th October 1889, No. 858, Revenue.

The proposed site for the construction of the new Taluk office at Kumbakónam sanctioned in G.O., dated 28th December 1888, No. 7777, is approved.

2. The Government considers, however, that both for the sake of the appearance of the whole block of buildings and in order to get the Sub-jail into a more retired part of the compound, the Tahsildar's part of the building should be at the west end, and the Treasury part and Sub-jail at the east end.

3. The necessary orders will issue in the Public Works Department.

Abstract.—Submitting revised plan and estimate for Rs. 22,170 for constructing a first-class Taluk office at Kumbakónam, Tanjore district.

Order—dated 26th March 1890, No. 2040, Revenue.

Transferred to the Public Works Department.

2. As observed by the Board, a ryots' shed is not admissible under G.Os., dated 7th June 1888, No. 1681 W., and 28th May 1889, No. 1409 W. As regards latrines, G.O., dated 20th September 1882, No. 2440 W., quoted by the Board as disallowing it, applies only to jail latrines. A public latrine is admissible under G.O., dated 28th May 1889, No. 1409 W.

Order—dated 14th April 1890, No. 1103 W., Public Works.

The revised estimate, amounting to Rs. 22,170, for constructing a first-class Taluk office at Kumbakónam in the Tanjore district, is reduced to Rs. 21,275 by the elimination of the ryots' shed, and sanctioned in supersession of the estimate of Rs. 19,240 sanctioned in G.O., No. 921 W., dated 18th April 1885.

2. A sum of Rs. 7,000 has been provided for the work in the preliminary issue of the Provincial Civil works budget estimate for 1890-91, and the Superintending Engineer will report what further sum can be spent on it during the year. The works should be pushed on as rapidly as possible.

3. This sanction has been registered as Provincial No. 2 W. of 1890-91, and classified as Civil Buildings, Original Works.
