READ—the following paper :—

From Captain H. A. STREET, H.M.'s I.M., Presidency Port Officer, to the Chief Secretary to Government, Marine Department, dated Madras, 13th March 1890, No. 812/137 G.

With reference to para. 3 of my letter, dated 4th November 1889, No. 812/490, I have the honor to forward, * herewith, an estimate from the Executive Engineer, Buckingham Canal Division, amounting to Rs. 895 for certain repairs to the Light-house Superintendent's quarters, out-houses and lascars' lines at Armeghon which are reported to be necessary.

* One estimate, Rs. 895, for repairs to Superintendent's quarters, with detail measurements and specification report.
One estimate, Rs. 580, for a new cook-house for light-keepers, with detail measurements, data and plan.

2. It appears to have been the practice hitherto for each light-keeper to cook in a hut of leaves erected by himself in the outer yard of the room allotted to him in the lines; but this, I am of opinion, should not be permitted, as the risk of the whole of the lines being destroyed is inevitable if any one of the huts in question should take fire. I would therefore recommend the construction of a separate cook-house for the light-keepers. The cost of such a building will be Rs. 580 as per Executive Engineer's estimate which is also herewith forwarded.

3. I beg that these estimates may be approved by Government and transferred to the Public Works Department for examination and sanction and for necessary action in regard to allotment of funds.

4. The total cost of the proposed works will form a general charge against the East Coast light-houses.

Approved and transferred to the Public Works Department. Funds will be allotted on application to the Financial Department.

(Signed) J. GROSE,
Ag. Chief Secretary.

24th March 1890.

ORDER—dated 14th April 1890, No. 1104 W., Public Works.

The estimate will be forwarded to the Superintending Engineer, II Circle, for sanction.

2. The Financial Department will be requested to place a sum of Rs. 1,475 as shown below at the disposal of the Public Works Department from Port funds :—

Forward to S.E. for disposal

Note of Remarks. Ucer 20.3.90

The estimates under review amounting to Rs 895 & Rs 580 provide for repairing the Light House, Superintendent's Quarters, Tower, & Lascars lines, and for constructing a separate Cart house for the Light Keeper at Armeghon in the Nilleri Dt.

The repairs to be carried out are of a petty nature such as plastering where necessary & whitewashing, cunning & refixing the cowpowlins necessary, stopping cracks, repairing doors & windows &c

The new Cart house is to be constructed as follows

The foundations are to be of concrete & the superstructure of brick in mortar.

The interior of the building is to be plastered with Chunam & Mr Dalrymple with Portland cement.

permitted, as the risk of the whole of the lamps being destroyed is inevitable if any one of the lights in question should take fire. I would therefore recommend the construction of a separate cookhouse for the Lightkeepers. The cost of such a building will be Rupees (580) five hundred and eighty as per Executive Engineer's Estimate which is also herewith forwarded.

3. I beg that these Estimates may be approved by Government and transmitted to the Public Works Department for examination and sanction and for necessary orders in regard to allotment of funds.

4. The total cost of the proposed works will form a general charge against the East Coast Lighthouses.
