2969

N^o. The Govt, the Hon: W. Frazer
 & I lately inspected the
 General Hospital in view to
 determining what had the
 £2500 appropriation required
 should be provided &
 also what else had been expended
 for purposes additional to the
 treatment of out-patients' hands.

We decided that an
addl. story ^{should} be added
to that part of the Hospital
lying to the ^{west} west of the
Quarries, or rather, quarters
so as to form a series of
4 or 6 additional bays.

It was also decided that
it was inexpedient to add
an urban story (to be
used as a ^{Potter} warning) to
the Hospital Recd. Law,
^{the} the f.o. sheet has been
sent containing its
contents & the claim against

Col: Nelson, who was present
his talk to look for some
other note & it was considered
that a meeting should be
called in each group.
Divⁿ & the Col:
Nelson was to put himself

in low main canal
to the high ground
D.C. in view to settling
the necessary sites.

The plan for extending
the outpatients' ward &
the high school students' quarters
has been? & some more
suitable.

Col. Cunningham, the Chief
Engr. who was also present
has asked to see that
in the plan for the upper
story to the hospital
the present arrangement
of the main hall the
patients will be placed
of the existing steam engine
of power.
