GOVERNMENT OF MADRAS.
REVENUE DEPARTMENT.

READ—the following Proceedings of the Board of Revenue (Revenue Settlement, Land Records and Agriculture), dated 26th March 1891, No. 171 :—

MR. CLOGSTOUN.

Read—the following letter from J. H. A. TREMENHEERE, Esq., Acting Collector of the Chingleput District, to the Secretary to the Commissioner of Revenue Settlement and Director of the Department of Land Records and Agriculture, dated Saidápet, 23rd March 1891, Reference on No. 986-Eng. :—

I have the honor to submit the brief monthly report on the season called for in Board's Proceedings, No. 58, dated 4th February 1891.

2. The general prospects as compared with the preceding month are not less gloomy with the progress of the drought. Though the land-holding classes are still generally outside the line of distress, the laborers suffer more as time goes on from the insufficient demand for field labor. Pasturage too is drying up and the water in cattle ponds getting very low. No rain fell in the month except $\frac{1}{16}$ of an inch at Tiruvallúr and $\frac{1}{8}$ of an inch at Uttukottai.

3. *Condition of the people.*—Of the poorest ryots and of the laborers, the men are still mostly in good condition, but in some villages of the affected tracts the women and children are beginning to show traces of insufficient nourishment. The public health, however, remains good.

4. As in last month the affected tracts are (1) the Ponnéri taluk, (2) in the Tiruvallúr taluk extensive areas round Kadur in the north and Periapalayam in the centre, (3) in the Chingleput taluk the Tiruporúr range, (4) in the Madurántakam taluk the Acharavakam range.

5. Trade is active. Prices have remained stationary, nearing the scarcity rate for rice in only one place (10.57 Imperial seers against 10) and being well above it for ragi, the staple food (18.80 against 13). A price list is appended.

6. *Works for giving employment to labor.*—The lists of Public Works Department and minor irrigation works are enclosed; they show the number at work.

7. *Land Improvement Act.*—The following table shows the amount advanced and the number of wells constructed or in course of construction. The figures for Saidápet are only estimates, as the information has not yet been obtained from the villages :—

Taluk.	UP TO MARCH 1891..			Remarks.
	Amount advanced under Land Improvement Loans' Act.	Number of wells constructed.		
	RS.	A.	P.	
Madurántakam	6,324	8	0	68
Chingleput	3,020	0	0	11
Conjeeveram	1,975	0	0	9
Tiruvallúr	7,670	0	0	* 34
Ponnéri	10,015	0	0	† 232
Saidápet	12,740	0	0	70

These figures relate to the transaction up to the 13th instant.

Do.

do.

up to 20th

do.

do.

* 24 under construction; 10 completed.

† 224 wells are under construction and 8 wells have been completed.

Resolution—dated 26th March 1891, No. 171.

Recorded.

2. Prospects continue unfavorable, but from the table given below a sufficient number of the works would appear to have been started which give employment to over 6,700 coolies excluding the Conjeeveram taluk which is not one of the affected tracts:—

Taluk.	MINOR IRRIGATION WORKS.		PUBLIC WORKS DEPARTMENT WORKS.	
	Number of works.	Number of coolies employed.	Number of works.	Number of coolies employed.
Ponnéri	15	906	8	975
Tiruvallūr	26	599	6	738
Saidāpet	14	483	11	776
Madurantakam	8	481	12	351
Chingleput	Not stated.	716	10	723
Total	..	3,185	..	3,563

3. Trade is active and prices are stationary, but the effect of continued high prices is beginning to be felt severely by the poorer classes in some of the affected villages. The Collector has already been requested to instruct his Divisional-officers carefully to watch the condition of these people and bring to the immediate notice of the Board any change for the worse that may take place.

4. The disposal of the applications for loans under the Land Improvement Act which are still pending should be expedited.
