NOTE OF REMARKS.

1182W

The estimate under review
amounting to Rs 30350 pro-
vides for metalling the
road (for a length of 7 miles
& 1320 ft.) from Madina-
palli Bridge to Gudimada
in the Krishna District.

It is stated in the
specification report
accompanying the estimate,
that out of sanctioned
special estimate of
Rs 1600 sand has been
spread for 17th 18th 19th & 20th
miles. The present esti-
mate therefore provides
for sanding the 14th 15th
& 16th miles for a width
of 12 ft. x 6" in depth. The
13th mile being in sandy
soil, no sanding is wanted.

The estimate provides
for

for metalling the road with 6" of broken stone to a width of 10 ft. over which a layer of 1" of red gravel is to be laid.

The top width of the road is to be 16 ft. out of which 10 ft. for metalling in the centre, 3 ft. earth margins on each side with side slopes of $1\frac{1}{2}$ to 1.

It is stated that the present road being an earthen one, travellers are put to much inconvenience, especially in the wet weather. Hence the necessity for thoroughly metalling it.

The sanding of the margins of the road 1 ft. on each side of the metalled surface seems unnecessary. With the exception of the rate for earthwork which is correct, the other rates cannot be checked, but a data list is submitted.

The estimate has been countersigned by the President Dist. Board.
