29TH APRIL 1891, No. 1183 W., PUBLIC WORKS.

GOVERNMENT OF MADRAS.
PUBLIC WORKS DEPARTMENT.

General.
Account.

READ—the following papers:—

From Lieut.-Colonel W. P. TOMKINS, R.E., C.I.E., Chief Engineer, Madras Command, Military Works, to the Secretary to Government, Public Works Department, dated Ootacamund, 20th February 1891, No. 1393.

With reference to G.O., No. 246 W., dated 26th January 1891, I have the honour to inform you that the Consulting Architect has requested the Executive Engineer, Bangalore, "to furnish him at his earliest convenience with copies of all sanctioned Provincial works estimates, as the same have to be included in the return of sanctioned estimates of the Consulting Architect's division."

2. This procedure will entail considerable copying and it appears to me quite unnecessary, a copy of the abstract being the most that we should be asked to furnish.

3. While on this subject I may state that I do not consider the procedure, which has obtained this year or that which is apparently contemplated in the Government Order under reference, will prove suitable. By the former, when I received an estimate, which I approved, I asked the Madras Government for a grant and I invariably had the amount I asked for placed at my disposal; by the new orders it would seem that, when I approve an estimate and ask the Madras Government for funds, the grant will be placed at the disposal of the Consulting Architect and that I should then proceed to sanction the estimate and allot funds placed at the disposal of another officer.

4. If I may be permitted to make a suggestion, I would suggest that, for dealing with Provincial works in Bangalore and Wellington, certain sums for Provincial original works and repairs should be appropriated for the Chief Engineer, Madras Command, Military Works, at the beginning of each year. We would during the year make allotments against these grants and the outlay could be finally recorded in whatever office it was decided should record it.

5. The detail of the procedure I leave to you, but what I aim at is being able to sanction an estimate and allot the necessary funds without having to apply on each occasion for a grant either to you or any other officer.

From the Examiner, Public Works Accounts, dated 3rd March 1891, No. 1269.
" Consulting Architect to Government, " 14th " 3794.
" Chief Engineer, Madras Command, Military Works, dated 4th April 1891, No. 2827.

ORDER—dated 29th April 1891, No. 1183 W., Public Works.

The Government is pleased to direct that the following procedure be adopted from the 1st April 1891 in regard to the provision of funds and adjustment of expenditure incurred by the Military Works Department on behalf of Provincial funds.

2. Lump sum grants for original works and repairs will be placed at the disposal of the Chief Engineer, Military Works, against which estimates can be sanctioned. The Executive Engineer of the neighbouring Public Works division will be supplied with an abstract of the estimate and intimation of allotments made. Immediately after the close of each month the expenditure incurred by the Military Works Department shall be debited in transfer to the Executive Engineer of the neighbouring division of the Madras Public Works Department, the advice of transfer being supported by the necessary receipts and vouchers for incorporation with his accounts. The expenditure incurred at Bangalore will be recorded in the books of the Consulting Architect, that at Wellington and Bellary in the books of the Coimbatore and Bellary divisions respectively.

3. The Chief Engineer, Military Works, will communicate to the Examiner of Public Works Accounts the allotments made to Executive Engineers from the lump sum grant placed at his disposal.

4. The grants required for 1891-92 will be shortly provided as promised in G.O., No. 239 W., dated 24th January 1891. For future years allotments will be made in the budget estimates and to admit of this being done the Chief Engineer, Military Works, will be requested to submit, on or before the 1st October of each year, an estimate of probable expenditure in the ensuing official year.

To W.

P. W. Dept.
To be returned with
reply

In the case of Provincial Civil Works to be carried out by the Military Works Branch, it should, I think, be sufficient, if copies of the sanctioned abstracts of estimates are sent to Consulting Architect for information; I do not understand why detailed estimates should be at all necessary; but it might be as well to see what the Consulting Architect has to say.

2. As to the question of grants, there would be no objection to Government placing certain sums at the disposal of the Chief Engineer Madras Command, Military Works, against which he would be authorized to sanction estimates, it being understood however that such grants are not to be treated as transferred to the Military Works Branch; the grants would remain in the budget registers of the Buildings and Roads Branch Madras, the Consulting Architect being instructed to keep a record of the grants as usual and of the progress of outlay against them.

Yours Office Note No. 1247 of 6-3-91

It would, I think be, quite

sufficient if copies of the sanctioned to
abstracts of estimates are sent in for
information but I see no
reason for the accounts being
passed through my office at all.
The Executive Engineer Military
Works Bangalore could account
for expenditure in Imperial or
Provincial Civil Works direct to
the Examiner, P. W. Accounts
Madras.
