usual circles.

As rules has been laid down as to the number & description of tools to be maintained in the ~~new~~ Circles - the numbers given in Appendix A of the R.O. merely show what were left in stock, after the last frame, & after unserviceable articles were disposed of.

From para 2 of the R.O. it will be seen that it was considered unnecessary to keep permanently in stock, tools other than those mentioned in Appendix B. - the idea being that other tools could be readily & rapidly procured in the local markets.

Cu

These tools other than shown in Appendix B. can be transferred to ordinary as required
