Copy of letter from L. L. Mickham Esq., General Superintendent, N. W. States, to the Executive Engineer, Winnipeg division No. 75 of 2nd April 91

See 1.

With reference to your letter No. 3572 of 21st February 1891, I have the honor to state that the Tools & appliances for Artesian Wells were transferred to this Department from People's Park for safe custody as per para 8 of G. O. No. 1732 of 28th July 1885, and these were sent to Divisions and Departments from time to time where Artesian Boring Superintendents are made and received back into Public Works stores for safe custody.

As the cost of these Tools cannot be had from the books of this office, am unable to send a Transfer Debit Advice for their value.

A Debit advice for the cost of C. H. Smith's vertical steam engine & Smith's Tool Box together with

the cost of carriage for boring tools
is herewith forwarded.

No 124.

Mt: 17. D: advice.

June 10th.

Forwarded to the Supty:
Engineer in field, in continuation
of this office letter No 3438 of 14th
February 1891, for orders as to the
adjustment of the cost of boring
and other charges shown in
the enclosed. Transfer Debit
Advice, as there is no allotment
to meet the above.

The advice was asked for to be
sent so far back as 27th September 90.
As there was no sign of such
being received, the balance of grant
allotted for the work was surrendered.
Vide also para 2 of my letter above
quoted. The advice has not
been accepted pending adjust-
ment in the supplemental
accounts for March 91, on
receipt of your instructions.

1920 ✓
Orders are also solicited whether
tools received for the Boring
work are to remain in this Division
or may be sent to Public Works stores.
A watchman is employed to look
after them on a salary of Rs 6-

Signed J. J. Wilson

Executive Engineer

Malanvottah

Trincomalee

14th April 91 -

No 73 TN dt 10th April 1891.

Mt: 1. D: 17. D: advice.

It is observed that against the
revised grant of Rs 3,510 an outlay
of Rs 3,844 has been already
incurred up to end of March
last, and the Transfer Debit
Advice now received from the P.W.
Stores amounts to Rs 2,408 - 11-8. In-
cluding this the total outlay
comes to Rs 6,253 or Rs 2,743 in
excess of the grant. From the Executive
Engineer Progress Reports it is
observed that some money will
be recovered by sale of some
materials, this must be a
small sum to meet the excess.

2. A sum of Rs 4,400 was surrendered in January from the original grant of Rs 7,900 for the work; if the Debit Advice was received in time, the surrender would have been reduced, but as the matter stands at present there is no other course but to accept the Debit Advice and adjust the amount in the supplemental accounts for March 1891 -

3. The Executive Engineer will observe from G. O. No 473 of 17th March 91, sent with this office No. 38711 that the boring plant is to be transferred to Ongole in the 11 fields, it should, as already ordered, be kept ready for despatch on receipt of orders -

4. From the Debit Advice it is observed that only Rs 296.7-6 were paid by the P. W. stores for freight, cooly hire &c, and the remainder (Rs 2,112.4.2) is the value of one Vertical steam engine 6 H. P.

Portable Rs 1982.¹²⁹⁰/₃ 8.4, & of one set of Smith's Tools Rs 129.13.10. - the value of these two will, it is believed, be debited to the Millers division on their transfer to Ongole -
