No. 1226, Mis.

From G. F. T. POWER, Esq., Acting Collector of South Arcot, to the Secretary
to the Commissioners of Land Revenue, dated Cuddalore, 3rd February 1891,
Ref. on No. 476-Eng.

Adverting to Board's Proceedings, dated 7th October last, No. 6371, Mis., I have
the honour to forward, herewith, an estimate, amounting to Rs. 3,100, prepared by the
Executive Engineer as desired by the Board.

2. The plan and estimate already submitted by the Divisional officer for Rs. 860
and returned with the Board's Proceedings under reply are also forwarded.

allotted in the next year. If the esti-
mate is sanctioned at an early date the

work can be put in hand and the available amount spent before the close of the current
year. I think that the work should be undertaken by the Department of Public
Works.

2. The Collector of South Arcot submits an estimate, amounting to Rs. 3,100, for
extending the office of the Deputy Collector, Tirukoilūr, which is inconveniently
small at present, the records being kept in a detached building which is 65 feet away
from the main building and is besides too small for a record room. It is proposed
to add two rooms to the main building, one for the head clerk and the other for
records. With the additions proposed the office will afford all the accommodation
that is required.

3. The Board recommends that the estimate may be sanctioned and forwarded to
the Public Works Department for execution.

SIR,

* Letter no 297
28790

I have the honor to state that the
Deputy Collector G. D. Lunkailur has forwarded
an estimate amounting to Rs 860 for
extending his office building at Lunkailur.
He reports that this work is absolutely
necessary as the present building is too
small and does not sufficiently accom-
modate the clerks and the current records
and suggests that the expenditure may be
met from the allotment of Rs 860 provided
in the current year's budget for works nos
2, 3, 4 and 5 for the Tirukoilur Taluk
(Vide Page 27 of the Board's Proceedings L.R.

that works nos 2, 4 and 5 may be put off

already been finished in 1889-90

will be pleased to sanction the above transfer.

The Collector is requested to forward

The Board does not think that
the proposed expenditure will produce a satisfac-
tory result. The existing record room is evidently
far too small, but when the proposed alterations

have been made there will still be no suitable second room. It will be preferable, the Board thinks to call on the P. M. D. to prepare a design and estimate for the improvement of the building by the addition of whatever extra accommodation is required for the Clerks and of a second room, the latter of which should answer to the following requirements:—

- i. It should be lighted on both sides;
 - ii. It should be commanded by the Head Clerk's seat; and
 - iii. It should not be capable of being used as a passage from one part of the Office to another.
2. It is observed that the Sections given on the plan do not in the least correspond with what they are supposed to be.

NOTE OF REMARKS.

The plan & Estimate under review amounting to Rs 3,100 provided for improving the Deputy Collector's office at Tinkailur in the South Arcot Dist.

The report emphasizes the necessity for the improvement proposed.

The window provided for the record room appears to be too narrow and might with advantage be increased from 1'4" x 5'6" to 3'6" x 5'6".

One of the terraces is placed across the down ways thus is objectionable and may be

replaced by dispensing
with the transoms and
bringing forward
the new cross walls
which would make
the 1st Chamber room
10' x 18' and the record
room 30' x 18'. The
transoms in the record
room would then
be 10' apart which is
admirable. The
Incident should be
be noted.

The ornaments shown
in the End Elevation
might be dispensed
with together with
the finish.

The rate for brickwork
is Rs 19 per 100 cft. is
in excess of that allowed
in the Schedule which
is Rs 15 per 100 cft. but
in a foot note in the
Abstract Est. it is stated
that the rates quoted
in this Est. are the
same as those given in
the Est. for the School

this will be the best way
and the cheapest if
10' x 18' is not considered
too small. The height of
the 1st room would be
increased by 5' which
would be an advantage.

position of the doors
