3. After the estimate of cost has been sanctioned by competent authority either separately or as part of the estimate of the project or scheme for which the land is required, the matter should be committed to the Collector of the District, who will submit the necessary draft declarations under the Act direct to the Department of the Government Secretariat concerned : the present practice of forwarding these declarations through the Board of Revenue and the Revenue Department of the Secretariat involves unnecessary delay and should be discontinued. A written statement of any objections made by the owners or occupiers should accompany these declarations.

ABSTRACT.—Communicating to the Board of Revenue Proceedings of the Public Works Department communicating Circular from the Government of India regarding the sanction of estimates prior to the purchase of land required for Government by public works.

READ—again G.O., dated 13th December 1889, No. 990, Revenue.

ABSTRACT.—Directing that, in cases where there is a large amount of work to be done, the lands required for public purposes should be acquired under the Land Acquisition Act, and sanctioning the extra establishment required for settling compensation for lands acquired for the Periyár main and branch channels in Madura district.

ORDER—dated 6th May 1891, No. 408, Revenue.

Land Revenue, No. 25.

In supersession of all previous orders on the subject, the Government resolves to direct that it should be the invariable

rule that, when lands are required for public purposes, they shall be acquired under Act X of 1870. Board's Standing Order No. 11 should be modified accordingly.

2. Paragraph 2 of the Standing Order is misleading and does not correctly embody the existing orders of Government in regard to the procedure to be followed by the District Heads of Departments. The paragraph is obviously based on the detailed rules approved in G.O., dated 24th February 1865, No. 418, and the procedure prescribed in this and the next two paragraphs was originally intended to apply to the preparation of estimates to be submitted for the sanction of Government *before* taking any action with a view to acquire the land. The reference to the Land Acquisition Act is, therefore, out of place. The paragraph should be revised so as to make it clear that the instructions contained in it refer to a stage anterior to the determination of the question whether the land shall be acquired at all. The form of statement prescribed in the paragraph is not given in the appendix. This defect should be remedied.
