No. 287
W Supg. Engineer's office, 4 Circle,
3^d June 1891.

From,
Lt. Col. R.R.R. Drake-Brockman, R.R.,
Supg. Engineer, 4 Circle,
To,
The Chief Engineer,
I.W. Department. 1608

Sir,
With reference to the remarks
of the Presidency Port officer on the
Annual report of lighthouses in the
Circle printed in G.O. No. 1296 W of 11th
ultimo, I have the honor to inform
you that owing to the small internal
diameter of the Column viz: 4 feet,
and the substitution of a spiral
staircase necessitating the removal
of the present stair case altogether before
it is placed in position, I consider
such a stair case unsuitable, whereas
an iron stair case ^{of the same pattern as the wooden one} with gratings as land-
ings can be more easily substituted
and will interfere with the draught
up the Column as little almost as a
spiral

spiral stair case would do.

I have the honor to be,
Sir,

Your most obedt. servant,

Ruedrich. Buchman Lt. Col. R.E.,

Supg. Engineer, 4th Circle.
