GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Account.

READ—the following paper :—

From the Superintending Engineer, IV Circle, dated 26th January 1889, No. 41 E.W.

ORDER—dated 1st February 1889, No. 266 W., Public Works.

In the statement of surrenders and demands recorded above, the Superintending Engineer, IV Circle, surrenders the sum of Rs. 12,350 allotted by the Government of India in their letter No. 2355 M.W., dated 28th December 1888, for expenditure during the current year on works connected with the water-supply to the Lawrence Asylum at Ootacamund. He explains that it is impossible to spend the amount before the close of the current official year, as all the materials required for the work have to be obtained from England, and he proposes to transfer the sum to the marginally-noted works, provided that the next year's grant of Rs. 9,500 for the apothecaries' quarters at Wellington, together with Rs. 2,850 from the lump sum allotment for repairs, or Rs. 12,350 in all, should be re-allotted during 1889-90 for expenditure on the Lawrence Asylum water-supply work. The Government

Quarters for three apothecaries at	RS.
Wellington	8,000
Military repairs, Nilgiri division	4,350
Total	12,350

of India will be requested to sanction the proposed transfer, and in the meanwhile the Superintending Engineer will submit, without delay, an indent on the Home Government for the piping required for the last-named work, &c., and also an estimate of the probable cost of purchasing the articles in India.

2. The Superintending Engineer also surrenders Rs. 2,000 from the grant for constructing sheds for the transport animals at Calicut. The surrender will be accepted, and Rs. 600 therefrom will be transferred to constructing a bakery at Wellington as proposed by the Superintending Engineer; and the Government of India will be requested to sanction the transfer of the balance (Rs. 1,400) to the following works :—

Military minor works { Nilgiri division	...	...	...	...	RS.
Coimbatore division	...	...	...	...	920
Do. repairs, Coimbatore division	...	...	...	...	230
	...	...	...	...	250
Total	...	...	...	...	1,400

3. The Executive Engineer concerned can, under para. 1922 of the Public Works Code, appropriate the sum of Rs. 600 surrendered from the grant for constructing a slaughter-house and hanging shed at Calicut to meet the demands on (1) "constructing parapet wall at West Hill, Calicut" and (2) "petty improvements to the regimental lines at Mangalore."

*Sanctioned
by India*

4. Funds not being available with the Government, the demand on account of repairs in the Coimbatore division should be restricted to the extent made available by surrender.

5. The sum of Rs. 409 surrendered from the current year's grant to the Nilgiri division under Imperial Civil Works, Postal Repairs, will be transferred to the Cuddapah division, where funds are urgently required (*vide* G.O., No. 45 W., dated 9th January 1889).

6. Since grants for Minor New Works, Postal, are at the disposal of the Director-General of the Post Office of India, the Superintending Engineer will apply to that officer for funds required for renewing the roof of the Post office at Cherambadi.

The Chief Engineer
Worries has already reported
that he cannot utilize
the tank at Wellington,
& apparently no use
for it can be found
at Orsacmand.

If it can be utilized
at the Women & Children's
Hospital, it will be
more economical to get
to get it down for
that purpose, as it
has already been paid
for.

P. W. D.

Office of the Consulting Architect to Govt.,
Chepauk, Madras,

4th June 1891

No. 885

From

Henry Irwin, Esq., C.I.E.,
Consulting Architect
to the Government of Madras,

To

The Chief Engineer
Public Works Department.

Sir,

Enclosures.

With reference to G.O. No. 295 dated 30th January 1891, I have the honor to state that the estimate for the College of Engineering workshops, submitted through the Principal with this office letter No. 1371 dated 30th July 1890, provided for a small wrought Iron Tank with a capacity of 4,000 gallons, to cost Rs 225, whereas the Tank made for the Lawrence Asylum measures 14x14x5 which will contain about 7900 gallons, and the cost of the same is Rs 1,901 exclusive of carriage to Madras. Under these circumstances I presume that it cannot be utilized for the proposed workshops. It might be used in the men's and children's Hospital but if any useful purpose can be found for it where it is, it would be wiser not to transport it to Madras as doubtless,

Bank or tanks can be procured here when required
at a cheaper rate.

I have the honor to be

Sir

Your most obedient servant

Henry Brown

Consulting Architect
to Government.

PUBLIC WORKS DEPARTMENT.

PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following

From the C.A. to Govt. No. 885 of 4 June 1891.

Communicated to the Educational Dept. with reference to No. 29512 of 30 June 1891.

2. The Govt. consider that if the iron tanks can be turned to account in connection with the proposed new Women's & Children's Hospital, it should be so utilized. Having already been purchased, its transport

To Madras will be more
 economical than the
 purchase of a new
 tank at Madras. The
 Super Supt. IV Circle
 has already reported
 that it cannot be
 utilized on the hills
 by the Public works,
 or milky works Dept.
