19TH JUNE 1891, No. 1657 W., PUBLIC WORKS.

GOVERNMENT OF MADRAS.
PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

READ—the following paper :—

From H. IRWIN, Esq., C.I.E., Consulting Architect to Government, to the Chief Engineer, Public Works Department, dated Chepāk, 10th June 1891, No. 973.

I have the honour to forward a letter No. 0/9, dated 5th June 1891, with enclosure from the Director of Public Instruction regarding the boundary between the grounds of the Medical College and those of the proposed Women and Children's hospital.

2. The line of boundary, as proposed by me and approved of by the Surgeon-General and the Government, is shown in blue; that now proposed by the Director of Public Instruction is shown by a dotted red line.

3. If this latter is adopted it will be necessary to build the dhoby sheds and stable, &c., as shown in red lines.

4. I think it will be necessary that, whichever boundary line is finally decided upon, that the entrance to the college from the Poonamallee road should be to the west of the boundary line; by adopting the Director of Public Instruction's suggestions room will still be sufficient upon which to build the hospital and its out-houses though the space will of course be curtailed more than is desirable. At the same time it is not desirable that the college ground should be curtailed more than is necessary and as it is unlikely that any buildings will ever be erected between the two buildings no interference with the circulation of air will occur by making this change, and, I think, it will be as well to accede to the proposal of the Director of Public Instruction.

5. I also request permission to proceed with the foundations of the hospital and the boundary wall. The detailed estimate and plans, though not ready for submission, are in a forward state of preparation.

ENCLOSURES.

From H. B. GRIGG, Esq., M.A., C.I.E., Director of Public Instruction, to the Consulting Architect to Government, dated Madras, 5th June 1891, No. 0/9.

With reference to your letter No. 789, dated 29th May 1891, I have the honour to forward a copy of a letter from the Principal, Medical College, for your consideration.

2. I trust it may be possible to re-erect the gymnasium on the spot marked in blue with B, as it is not expedient to bring the gymnasium closer than this to the female students' tennis grounds. I hope also that you will be able to meet his wishes in regard to the proposed boundary line. The college certainly requires more space in front. I am also desirous of keeping the botanical garden within the college premises.

3. I am sure too that you will agree in Dr. Ritchie's wishes in regard to the dhoby shed, coach house and stable.

4. The entrance drive to the college is a matter which may be settled later, but, if the new boundary is approved, it might skirt the new boundary line as marked with two blue lines.

From Surgeon-Major J. H. RITCHIE, Principal, Medical College, to the Director of Public Instruction, dated Madras, 1st June 1891, No. 64.

I have the honour to inform you that the enclosed letter No. 789, dated the 29th May 1891, from the Consulting Architect to the Government of Madras is the first official intimation I have received of the proposed erection of a Hospital for Women and Children on the college playground and further that I am only now made aware by an inspection of the plan that accompanies this letter of the very great extent by which the college grounds have been curtailed in the plan site of the proposed hospital.

2. The boundary line between the college and hospital, marked in blue line in plan, runs due north and south from the railway line to Poonamallee road, and, where it is opposite the college buildings, at a distance of 17 yards from its main entrance, it cuts off two lawn-tennis courts, the gymnasium, a portion of one of the lawn-tennis courts used by female students and the garden plot. In its present position also, it will interfere with any future expansion of the range of rooms now used as tiffin rooms by Hindu students. These rooms now furnish only a fractional part of the accommodation required by 297 native students and it was pointed out to you in this office letter No. 684, dated the 11th February 1890, to your address that additional tiffin rooms are required for the Brahmin, Sudra and other students of the Hospital Assistant department of the college.

3. I am, therefore, compelled to protest, in the interests of this institution, against so much of the college grounds being absorbed in the construction of the proposed hospital, and, as nothing has been done up to date beyond storing building material, I would suggest certain modifications in this part of the plan and request you would be good enough to accord them all the support it is possible you can give them.

4. These modifications are as follows:—

(a) The boundary line should be thrown 80 feet further east from its present position. This position is marked in red pencil in the plan. It would then be possible with the extra space thus gained to re-arrange the college grounds adjoining Poonamallee road into four lawn-tennis courts and a gymnasium. This modification would also bring the garden plot within the college boundary.

(b) The removal of the dhoby shed, coach house and stable which are thrust in between the extreme end of the college buildings and the Hindu students' tiffin room.

(c) I see no necessity for altering the present entrance into the college from Poonamallee road.

ORDER—dated 19th June 1891, No. 1657 W., Public Works.

The Consulting Architect is authorised to adopt the boundary line proposed by the Principal of the Medical College and the Director of Public Instruction and to proceed with the boundary wall and the foundations of the hospital.

No. 993

From

Henry Ince, Esq., C.I.C.,

Consulting Architect

to the Government of Madras,

To

The Chief Engineer

P. W. Department

Madras

Sir,

3 Enclosures.

I have the honor to forward ^{with enclosure} a letter No 8/9 dated 5th June 1891, from the Director of Public Instruction regarding the boundary between the grounds of the Medical College and those of the proposed Women and Children's Hospital.

The line of boundary as proposed by me and approved of by the Surgeon-General and the Government is shown in blue, that now proposed by the Director, Public Instruction is shown by a dotted red line.

If this latter is adopted it will be necessary to build the Dhoby Sheds and Stable as shown in red lines.

I think it will be necessary that

that whichever boundary line is finally decided upon that the entrance to the College from the Ponnammallee Road should be to the west of the boundary line, by adopting the Director of Public Instruction's suggestions room will still be sufficient upon which to build the Hospital and its out-houses though the space will of course be curtailed more than is desirable. At the same time it is not desirable that the College ground should be curtailed more than is necessary ^{and} as it is unlikely that any buildings will ever be erected between the two buildings no interference with the circulation of air will occur by making this change, and I think it will be as well to accede to the proposal of the Director of Public Instruction.

I also request permission to proceed with the foundations of the Hospital and the boundary wall. The detailed estimate and plans, though not ready for submission, are in a forward state of preparation.

I have the honor to be

Sir,

I have the honor to inform
you that the enclosed letter No.
789, dated the 29th May 1891 from the
Consulting Architect to the Govern-
ment of Madras is the first official
intimation I have received of the
proposed erection of a Hospital for
women & children on the College play
ground and further, that I am only
now made aware, by an inspection
of the plan that accompanies

this

this letter, of the very great extent
by which the college grounds have
been curtailed in the plan site
of the proposed hospital.

2. The boundary line between
the college and hospital, marked
in blue line in plan, runs due
north and south from the railway
line to Poona Mallee Road and
where it is opposite the college
buildings, at a distance of 17
yards from its main entrance.
it cuts off two lawn tennis
courts, the gymnasium, a portion
of one of the lawn tennis courts
used by female students and the
garden plot. In its present
position also, it will interfere with
any future expansion of the
range of rooms now used as
dining

dining rooms ¹⁶⁵ by Hindu students.
These rooms now furnish only
a fractional part of the accommo-
dation required by 297 native
students and it was pointed out
to you in this office letter No.
684 dated 11th February 1890
to your address that additional
dining rooms are required for
the Brahmins, Sudras and other
students of the hospital Assistant
Department of the college.

I am therefore compelled
to protest, in the interests of this
Institution, against so much of
the college grounds being absorbed
in the construction of the proposed
hospital and as nothing has
been done up to date, beyond
storing building material, I
would

to the Govt. Medical
College: regarding the new
hospital for women & children
to be built on the College grounds.

J.W. Department.

FOR ORDERS.

1657/10

Read to following.

From the Consulting Architect No. 973 of 10 June 1891.

The boundary line
now objected to by the
Principal of the Medical
College and the Director
of Public Instruction was
adopted under instructions
from Government, but
there seems no reason
why the amended line
now proposed should not
be substituted. The in-
convenience to the College
by the curtailment of
its grounds would
undoubtedly be great,
while the hospital can
well spare the space.

2. Proposed therefore
that the amended boundary
be adopted, and that
the Consulting Architect
be authorised to proceed
with the foundations of

of the hospital, as requested
in the last para of his
letter.
