GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Establishment.

READ—the following papers :—

From H. B. GRIGG, Esq., M.A., C.I.E., Director of Public Instruction, to the Chief Secretary to Government, dated Madras, 1st April 1891, No. 3473.

I have the honour to bring to the notice of Government the expediency of transferring Mr. Chatterton, the Professor of Engineering in the College of Engineering, for about two years to the Department of Public Works, in view of his obtaining adequate practical experience of large works, more especially works connected with irrigation, if his position as Professor of Engineering is to be rendered as useful as possible to engineering education in this Presidency. Mr. Chatterton has, on two or three occasions, spent his vacations in visiting works, and in, as at Periyár last year, trying to gain some practical experience in their execution; but apart from the fact that little can be learnt from actual practical work in such short periods, there is the great difficulty that the officer in charge of important works cannot, I understand, properly entrust any important work to the officer of another department, who is attached to his office in this casual way and who is not in the position of a responsible subordinate accountable for bad work. Mr. Chatterton possesses considerable engineering ability and a high knowledge of the theories of engineering. He also understands, I believe, mechanical engineering well so far as the workshop is concerned, but he has had little experience of civil and mechanical engineering in large works. It is manifest that a professor, without such experience, is at a disadvantage and that the engineering courses at the Government College cannot be instructive and useful as they would be had Mr. Chatterton much wider experience of works as well as of the administration connected therewith. I desire to remedy these defects by placing his services at the disposal of the Public Works Department for employment on important irrigation and bridge works for a sufficient period, which, I am informed, may be set at two years—from the date of Captain Love's return to duty in November next when the year's work in the college will be over. There will be no one competent to act for him in this department and the carrying out of this proposal must depend upon an officer of the Department of Public Works, an Executive Engineer of the fourth grade or an Assistant Engineer of the first grade being appointed to act for him. Mr. Chatterton is a graded Educational officer of the fourth class on a salary of Rs. 500—750. An Executive Engineer of the fourth grade, whose pay is Rs. 600, or an Assistant Engineer, first grade, whose pay is Rs. 500, would not, I am told, accept Mr. Chatterton's place unless the pay is made sufficiently remunerative. I would, therefore, suggest that the Chief Engineer be instructed to place a competent officer at the disposal of this department from November next of either of the grade above noted and that a local allowance of Rs. 100 a month be sanctioned to the officer selected for the post in addition to his pay in the Department of Public Works. Mr. Chatterton would, I presume, draw his college pay *plus* any increments which fall due during his delegation to the Department of Public Works while on duty in that department, in addition to the travelling allowances admissible under the Code. The extra charge will thus be Rs. 100 per mensem, or Rs. 2,400 for the two years, which is not high when the advantages that are expected to accrue to the college from Mr. Chatterton's extended experience are taken

into account. The Chief Engineer, Colonel Pennycuick, will not, I am informed, object to employ Mr. Chatterton during 1892 and 1893 as an Assistant Engineer on the above terms.

Referred to the Public Works Department for favour of remarks.

(By Order.)

(Signed) A. BUTTERWORTH,
Acting Under-Secretary.

13th April 1891.

Office-note from the Examiner, Public Works Accounts, dated 9th June 1891, No. 3246.

ORDER—dated 20th June 1891, No. 1666 W., Public Works.

There is no objection in the Public Works Department to the proposal to attach Mr. Chatterton to this department for a period of two years for practical training and to replace him in the College of Engineering by a Public Works officer; but, as the rules do not provide for an arrangement of this kind, the sanction of the Government of India will, in the opinion of the Examiner, be necessary. Such sanction will accordingly be applied for.

LETTER—from

LIEUT.-COLONEL A. C. SMITH, R.E.,
Acting Joint Secretary to the Government of Madras,
Public Works Department,

To

THE SECRETARY TO THE GOVERNMENT OF INDIA,
PUBLIC WORKS DEPARTMENT.

SIR,

I am directed to forward, for the orders of the Government of India, the accompanying copy of Proceedings, No. 1666 W., dated 20th June 1891, from which it will be seen that the Director of Public Instruction proposes that the Professor of Engineering in the College of Engineering, Madras, should be attached, for practical training, to the Public Works Department for a period of two years from November next. The officer in question, Mr. Chatterton, is a graded Educational officer of the fourth class on a salary of Rs. 500—700 and would, while in the Public Works Department, be employed as an Assistant Engineer, and, in this capacity, could, it is thought, acquire such practical experience as would greatly enhance the value of his teaching in the college. It would, however, be necessary to replace Mr. Chatterton during his absence from the college, and an officer of the Public Works Department could be made available for the purpose. The officer selected is an Assistant Engineer, first grade, and Executive Engineer, fourth grade, *temporary*, and, should the Government of India see no objection to the arrangement proposed, it is thought that the officer in question should draw, while at the college, the pay of his grade with the Presidency allowances of his rank and be entitled to such promotion, permanent or temporary, as would fall to him were he still in the department. The Educational and Public Works Departments would respectively bear the cost of the pay and allowances of its own officers during the currency of the arrangement.

2. I am to request the formal sanction of the Government of India to these proposals.

I have the honour to be,
Sir,
Your most obedient servant,

Lieut.-Colonel, R.E.,
Ag. Joint Secy. to Govt., P.W.D.

JUNE.

Mr. Chatterton,
Professor of Engineering

Requesting sanction to certain proposals to attach — to the Public Works Department for two years for practical training.

D

1666-7

P.W. Department.

Endorsement

Endorsement in the Educational Department
dated 13th April 1891.

The proposal to attach Mr. Chatterton to the P.W. Department for a period of two years for practical training seems a good one, and there is no objection to the arrangement so far as this Department is concerned. An officer to replace Mr. Chatterton in the College of Engineering will also be made available. The most suitable candidate for the post is thought to be Mr. Whiteley, Executive Engineer IV grade, temporary. It is understood that during Mr. Whiteley's employment in the College he will draw the emoluments he would have received had he remained

on

in the P.W. department, in addition to the Presidency allowances of his rank.

2. It is not quite clear, however, that the arrangements can be made by this Govt. without the sanction of the Govt. of India. The Examiner thinks that the case being peculiar and not provided for by any rules, sanction of the Govt. of India should be obtained, and that to prevent any misunderstandings and difficulties it would be desirable to state in full detail the arrangements as to pay, local allowances, status, allocation of charges &c, for which approval is desired.

Government of Madras.

PUBLIC WORKS DEPARTMENT.

Ootacamund, 5th June 1891.

OFFICE NOTE.

From W

To L.

It is proposed to attach to the P.W. Department for a period of two years for practical training, Mr. Chatterton, Professor of Engineering in the College of Engineering Madras. Mr. Chatterton is a graded Educational officer of the 4th class on a salary of Rs 500-750, and would, while in the P.W. Dept., be employed as an Assistant Engineer. In order to replace Mr. Chatterton in the College it has been suggested that an Assistant Engineer

1st grade or Executive Engineer 4th grade should be temporarily made available from the Public Works Department.

2 Please state whether there are any objections from an audit point of view to the arrangement and whether, in the event of an Assistant Engineer 1st grade with temporary rank of Executive Engineer 4th grade being selected this officer could retain his temporary rank and also draw the Presidency allowances admissible under Code rules.

3 Mr. Chatterton would, it is understood, continue to draw his pay from the Educational Dept., while the P.W. officer acting for him would be paid by the P.W. Dept.

4. An early reply is requested.

OFFICE OF THE DIRECTOR OF
PUBLIC INSTRUCTION,
Madras, 1st April 1891.

No. 3473

From

H. B. GRIGG, Esq., M.A., C.I.E.,
DIRECTOR OF PUBLIC INSTRUCTION.
Madras,

To

The Honble the Chief Secretary
to Government
Fort St. George

SIR,

I have the honour to
bring to the notice of
Government the appointment of
transferring Mr. Chatterton,
the Professor of Engineering
in the College of Engineering
for about two years to the
Department of Public Works,
in view of his obtaining
adequate practical experience
of large works, more especially

works connected with Irrigation,
if his position as Professor
of Engineering is to be rendered
as useful as possible to
Engineering education in this
Presidency. Mr. Chatterton
has, on two or three occasions,
spent his vacations in
visiting works, and in,
as a Privilege last year,
trying to gain some practical
experience in their execution.
But apart from the fact
that little can be learnt
from actual practical
work in such short periods,
there is the great difficulty
that the Officer in charge of
important works cannot,
I understand, properly entrust

1666-7
18 9

any important work to the
Officer of Lower Department,
who is attached to his Office
in this casual way, & who
is not in the position of a
responsible subordinate
accountable for bad work.
Mr. Chatterton possesses
considerable Engineering
ability, and a high knowledge
of the Theories of Engineering
as he also understands, the Theory,
Mechanical Engineering, as well,
so far as the Workshop is
concerned, but he has had
little experience of Civil and
Mechanical Engineering in
large works. It is manifest
that a Professor, without such
experience, is at a disadvantage,
and that the Engineering
courses at the Government

College cannot be instructive and useful as they would be, had Mr. Chatterton much wider experience of works, as well as of the administration connected therewith. I desire to remedy these defects by placing his services at the disposal of the P. W. Department for irrigation and land works for a sufficient period, which, I am informed, may be set at two years — from the date of Captain Lane's return to duty in November next when the year's work in the College will be over. There will then be no one competent to act for him in this Department, and the carrying out

1666-7
700

of this proposal must depend upon an Officer of the Department of Public Works — an Executive Engineer of the 4th Grade, or an Assistant Engineer of the 1st Grade — being appointed to act for him. Mr. Chatterton is a Graded Educational Officer of the 4th Class on a salary of Rs. 500–750. An Executive Engineer of the 4th Grade draws Rupees 600, or an Assistant Engineer 1st Grade whose pay is Rupees 500 month by month, I am told, except Mr. Chatterton's placed unless the pay is increased by specially permanative. I would, therefore, suggest that the Chief Engineer be instructed to place a competent Officer at the

disposal of this Department from November next of either of the grade above noted, and that a local allowance of Rupees 100 a month be sanctioned to the Officers selected for the posts in addition to their pay in the Department of Public Works. Mr. Chatterton would, I presume, draw his College pay plus any increments which fall due during his deputation to the Department of Public Works while on duty in that Department, in addition to the travelling allowances admissible under the Code. The extra charge will thus be Rs. 100 per mensem, or Rs. 2,400 for the two years, which is not high when the advantages that are expected to accrue

1666-7/84

to the College from Mr. Chatterton's extended experience are taken into account. The Chief Engineer, Col. Pennycuick, will not, I am informed, object to employing Mr. Chatterton during 1892 & 1893 as an Assistant Engineer, on the above terms.

I have the honour to be,
Sir,
Your most obedient Servant,

Director of
Public Instruction.

1666-7
12 9

I think the Contractors & Workmen should be paid. They will be more diligent in Xg and the Contractors be allowed on the Cole balance pervious Quarterly allowance / 100li for Expenditure + 50li for Clerk & Engineer Instead of Cutting the Volunteers I think the Chief Engineer should compare the Clerks Books with the Works

(By order)

11 April A Chatterton
Ag. under Secretary.

For orders.

There would be no objection to Mr. Chatterton being temporarily attached to the Irrigation staff of the P.W.D. (I think Periyar would doubtless be the best place for him to gain experience on irrigation works) in exchange for an officer on the estabt. as proposed, but the latter should be a volunteer if the Govt. agree to the proposal S.E.s should be called on to submit names of officers (competent) willing to undertake Mr Chatterton's work at College.

and would, while in the P.W. Dept., be employed as an Assistant Engineer, and in this capacity could, it is thought, acquire such practical experience as would greatly enhance the value of his teaching in the College. It would, however, be necessary to replace Mr Chatterton during his absence from the College, and an officer of the P.W. Dept. could be made available for the purpose. The officer selected is an Assistant Engineer 1st grade and Ex. Engineer

4th grade, temporary;
and should the
Government of India see
no objection to the
arrangement proposed,
it is thought that
the officer in question
should draw, while
at the College, the
pay of his grade
with the Presidency
allowances of his rank,
and be entitled to
such promotion,—
permanent or temporary,
as would fall to
him were he still
in the Department.
The Educational
and Public Works
Departments would
respectively bear the
cost of the pay and
