Read—the following letter from H. IRWIN, Esq., C.I.E., Consulting Architect
to the Government of Madras, dated 24th April 1891, No. 343.

I have the honour to return the plan and estimate received with Proceedings of the
Board of Revenue, Mis. No. 2753, dated 20th April 1891, and to request that the same
may be submitted to Government for sanction as requested in my letter, No. 59, dated
4th April 1891, as it is beyond the powers of sanction of this office.

Resolution—dated 14th May 1891, Mis. No. 3354.

The plan and estimate for providing for eight roof lights to the record-room of
the Board's office at a cost of Rs. 3,475 are submitted for the sanction of Government
and for the provision of funds in the Public Works budget.

2. The necessity for the lights has been explained in the specification report
accompanying. The Board's general record-room is in the centre of the building and
is lighted only by sky-lights from the top; the existing number of sky-lights, how-
ever, is quite insufficient to properly light the room, and on dark days, even at midday,
and on ordinary days, by 3 or 4 p.m., lamps are a necessity, and besides the extreme
inconvenience of having to carry a lamp in one hand while handling books at the top
of a high ladder, there is the risk of fire. The present estimate provides for sky-lights
to light up chiefly the corners of the present room, which are the darkest places now,
the high record-racks cutting off the supply of light from the existing sky-lights.
