GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Account.

READ—the following paper :—

From G. D. WYBROW, Esq., Superintending Engineer, I Circle, to the Chief Engineer, Public Works Department, dated Dowlaishweram, 6th October 1890, No. 822 G.N.

With reference to para. 6 of G.O., No. 2255 W., dated the 20th August 1890, I have the honor to submit herewith a statement of details for lump sum grants given for estate works in the Ganjam division. The totals of details in the case of Dhárakót, Bodogoda, Aska, Kallikót and Atagadá estates amount to more than the modified grants shown in the above Government order. Details of grant for the Parlákimedi estate have been omitted from the statement, and the Executive Engineer promises to send the details after the accounts of that estate are finally closed. For Jarada estate Rs. 500 only have been given in G.O., No. 2548 W., dated the 25th September 1890, for emergent minor irrigation works, but the statement contains works to the extent of Rs. 3,700. These works will be carried out in next year when an increased allotment may be granted.

2. The statement now submitted contains details for Rs. 59,390, and the Executive Engineer states that he will apply in his next application for the additional funds required. Considering, however, the present expenditure on the estate works, I am doubtful whether he will be able to spend the whole amount included in the statement, but will report further on the subject when sending my next application for modifications of allotments.

3. For the Kurla estate the total of the details given is Rs. 1,025 less than the modified grant shown in G.O., No. 2255 W. of the 20th August 1890, but the Executive Engineer does not afford any explanation for this decrease.

4. A comparative statement showing the present grant and the amounts shown in the statement of details accompanies this letter.
