GOVERNMENT OF MADRAS.
PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

READ—the following papers :—

From the Superintending Engineer, VI Circle, dated 22nd January 1891, No. 999 M.D.
G.O., dated 17th March 1891, No. 1866, Revenue.

ORDER—dated 11th May 1891, No. 1290 W., Public Works.

An estimate, amounting to Rs. 80,700, is submitted by the Superintending Engineer, VI Circle, for alterations and improvements in Tirumala Naick's palace, Madura, so as to provide accommodation for the Revenue and Forest Departments in the building.

2. The estimate is made up of the following items :—

	RS.
1. Demolition	115
2. Windows of the English record-room	650
3. Shutters	900
4. Screens	350
5. Pankahs	460
6. Glazed windows and shutters	900
7. Repairing flooring	410
8. Wire netting to English record-room	140
9. Walling off Deputy Collector's room	40
10. Steps in front of Deputy Collector's room	260
11. Verandah to Collector's retiring room	310
12. Converting vernacular record-room into a store and stationery room	490
13. Providing space for the huzur cashkeeper and establishment	25
14. A second iron cage in the treasury room	1,210
15. Cast iron railing near treasury	100
16. New record-room for vernacular records	10,365
17. Demolition of walls of room of Collector's clerks	710
18. Iron railing round land belonging to the palace	12,165
19. Clearing land of houses	1,100
20. Compensation for land	50,000
Total	80,700

3. It is observed that item 16 is still under consideration in the Revenue Department and may be deferred, and items 18, 19 and 20 will be struck out of the estimate. When it has been decided to proceed with item 16, only sufficient land to provide a space of 15 feet round the record-room and the west end of the palace will be acquired. Should this space encroach on existing houses, only one block in depth should be taken up and not the whole space as shown in the plan. The item of land compensation would thus be greatly reduced and the cost of enclosing the land by iron railings, if ultimately decided on, be also curtailed. If more land is considered necessary, the reasons should be clearly explained.

1583 W
10-6-91

4. The estimate is accordingly reduced for the present by Rs. 73,630 and sanction is accorded to the balance, viz., Rs. 7,070, which will be provided for the work in the final issue of the Provincial Works budget estimate for 1891-92.

5. A sum of Rs. 26,000 having been provided for the work in the final issue of the Provincial budget for 1891-92, the difference (Rs. 18,930) will be resumed and added to the reserve with the Government.

6. This sanction has been registered as Provincial No. 16 W. of 1891-92 and classified as Civil Buildings, Original Works.

Tirumal Naick's Palace,
Madura

Passing orders on estimate submitted by
the Superintending Engineer, VI Circle, for
alterations and improvements to —.

No. 557

Public Works Department
8th May 1891.

From

W. Hughes Esquire, 185 1/2
Executive Engineer Madras D.

To

The Collector of
Madura.

Sir,

With reference to your No. 915 of 4th May,
I have the honor to state that the site
shown by red lines on the tracing is as nearly
as possible that approved by the Fourth
Member of the Board of Revenue and
Mr. Turner. If I remember rightly, we
were standing opposite the Treasury when
it was suggested that the building should
be erected from where we were standing
northwards towards the District Court.
The exact position was not settled.
In the plan submitted with the estimate
the record room is shown built up against
the wall of the District Court.

I have &c

From

W. Hughes Esquire,
Executive Engineer
Madura D. 1891/4

To The Collector of
Madura.

Sir, In reference to your No. 812 dated 16.4.91,
I have the honor to forward a tracing showing
proposed site of new record room at the
Palace. The site roughly indicated to the 4th
Member of the Board of Revenue and the
Collector was opposite the Treasury and the
Ternacular record room but on laying
down the proposed building on the plan,
it seems to me that, if placed opposite to
the Treasury, it would, to some extent, cut
off light (of which there is already too little)
from that room. Nothing was settled about
any alteration in the size of the record room.
In submitting the estimate, I proposed
making the width 31 ft inside. The plan
and estimate are now being revised, the
room being made 31 x 84 but it may be made
half as long again if desired.

Forwarded to the Secretary to the Comptroller
of Land Revenue Madras in reply
to Board's Proceedings No. 2379. It
appears from a subsequent letter from Mr. Hughes that the site marked red
is as nearly as possible that approved
of by the fourth member, Board of
Revenue and Mr. Turner which on first
reading this letter, I supposed it was not.

Proceedings of the Board of Revenue

(Land Revenue).

Dated 3rd June 1891.

No. 3983 Mr.

Mr. H. W. Bliss

Mr. G. McWaters

Read Indorsement from S. H. Wynne Collector of Madras
dated 27th May 1891 No 205.

Resolution.

The Collector's letter and his sketch of the
proposed record room received therewith will
be submitted to Government with reference to Govern-
ment Order dated 17th March 1891 No 1866

2. The site of the room shown on the sketch
was the one selected by the Board's fourth
member in conjunction with the Collector.

3. The Board approves this site, but as
to the size of the room, it thinks, that the
room should be lengthened from 82' to 100'.
ample room is required for records in
such

Such a head-quarters as ^{Madura} ~~Madras~~ and it is
far cheaper to find it now in its original
design, than to have to provide it afterwards
by patch work additions and alterations.
The total area of the rooms in which the
records are at present secured is 4000 Square
feet.
