Buildings and Roads.
Military Works.

READ—the following paper:—

From the Executive Engineer, Tinnevely division, to the Superintending Engineer, VI Circle, dated 25th June 1891, No. 1153.

I have the honour to bring to your notice that the old guard room outside the Palamcottah powder magazine and borne upon the register of public buildings, item No. 54/1, is in a ruinous condition. The masonry of the walls has weathered and the roof is falling in, the building is also in a filthy condition and standing as it does in the centre of the station it should either be repaired and put to some use or demolished.

2. As the adjoining magazine is used by the police, I asked the District Superintendent if he had any use for the old guard room. He replies that the police do not require it, and, as I can make no suggestion for making use of it, I have the honour to request sanction to demolish it.
