Letter from the C. Engineer,
Birmingham and Division No.
41 dated 23rd May 1891 Balke Supt. Ruff
to Circle.

1984

With reference to G.O. No. 106 SW
of 17th ultimo, I have the honor to say
that I only had Change of this Division
on 24th February last, and intended
for the Cement on inspecting the work
towards the end of March, and on
learning from the Sub-Division Office
that it was required.

I would also point out that
hitherto it has been considered in
this Office that the case in question
is fully covered by para 3 of Appen-
dix A to N. W. Code, which provides
for perishable articles, promptly
procureable in India, being dealt
with as special exceptions to the
ordinary rule of obtaining European
stores through the India Office -
This proviso applies with peculiar
force to cement, and, it is held
so to apply in future, there is likely
to be much inconvenience caused
in this Division, where works are
frequently put in hand immediately
the estimate is sanctioned.

1984/3

Note by the Chief
Engineer P. W. D.

The undersigned is
of opinion that the
purchase of cement
should be considered
as covered by para 3
of Appendix G of the
P. W. Code.

Portland cement
is distinctly a perishable
article, and liable to
deterioration if kept
long.

Cases in which the
local purchase of
English cement is required
are not very frequent,
as for ordinary work
the Madras cement is
quite good enough,
but it is precisely in

The expressions are not
convertible by any means.
The paper may however
be recorded.
I don't find any proviso
in para 3 App. G.

Wes

these special cases that
prompt action is almost
always necessary and
it would be impossible
to await compliance
with an indent from
England.
