GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Establishment.

READ—the following paper:—

Office-note from the Officiating Examiner of Public Works Accounts, dated Madras, 11th July 1891, No. 3907.

With reference to your memo. No. 485 D., dated 2nd July 1891, regarding the submission of a revised scale of establishment for Examiner's office, Madras, I beg to forward, for the information of Government, extract of para. 3 from Major Christie's memorandum for my information prepared with reference to Public Works Code, para. 403-A., which gives the opinion of Major Christie, R.E., on the question of the reductions to be effected. A copy of the above memorandum has also been sent to the Accountant-General, Public Works Department.

ENCLOSURE.

EXTRACT (para. 3) of memorandum, for the information of Mr. I. Sherlock-Hubbard on his taking charge of the office of Examiner of Public Works Accounts, Madras, from Major C. H. P. Christie, R.E., prepared with reference to Madras Public Works Code, para. 403-A.

3 In para. 5 of Government of India letter No. 1490 I., dated 7th June 1890, printed with Madras G.O., No. 1748 W. of 23rd June 1890, the Government of India directed that the Examiner should submit, for approval, a revised scale for the establishment of accountants within twelve months from that date, but the feasibility of making any further reduction was admittedly dependent to a very great extent on the view taken by the Madras Government with reference to certain recommendations of the Public Works Accounts Committee, and, as the Madras Government has not yet passed orders on those recommendations, it has not been possible to make any further progress in the direction of reducing work as a result of changes dependent on the Accounts Committee's proposals. Also for nearly a year now the office has been greatly weakened by the fact that the two senior accountants have been officiating as the only two gazetted officers, and, however, efficient they may be (as gazetted officers), this has obviously been a distinct weakening of the office, the two senior accountants being ultimately replaced by two raw clerks on a few rupees a month, and, consequently, it has not been possible to do much in the way of simplification or systematization of work in directions independent of the Accounts Committee's proposals. For these reasons I have not yet found myself in a position to submit any further proposals for reduction of establishment. I believe, however, that opinions regarding possibilities of reduction of cost have been materially modified during the last twelve months or so, and now that there is no longer any intention of reducing the scale of pay of graded accountants, I do not think it will ever be found possible to effect any considerable reduction of cost beyond that already secured as far as this office is concerned.
