PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following paper:—

From the Manager of the N. B. C. H. Industrial School, Flom, dated 24th June 1891.

I have the honor to acknowledge the receipt of Proceedings of the Government (Public Department) No. 145 of the 5th March 1891, and to express my thanks to His Excellency the Governor in Council for the acknowledgment of my claims to the building lately used as District Munsiff's Court in the town.

2. At the same time I beg to submit that the conditions upon which the building is handed over are very embarrassing and tend very much to diminish the value of the boon conferred. In the first place several alterations will be necessary to make the building suitable for any purpose except that of a Court, and then again as the compound in which the Court stands does not adjoin the Industrial School premises it will be difficult to maintain discipline in

in the two plans with one staff of officers.

3. It is conceded by the Government that the Industrial School has claims for assistance. The fact also that both the Marwar Municipality and the District Board have founded scholarships in it shows that locally it is valued. The Educational officers who have examined it have testified in the highest terms to the efficiency of its management, and the good work turned out from it; and at the present time negotiations are going on between the Head of the Department and the manager respecting further development. In view of these circumstances if the Government will hand over the building absolutely to me I shall see that the Industrial School gets the full benefit of the concession, and that the purposes of the Government are properly carried out.

I have therefore the honor to request that the order of Government may be so modified as to make this practicable.

Order, 14th July 1891 N. 545

The Government does

not see how the difficulties stated by Mr.

2037
Mr. Little in para 2 of his letter proposed be
obviated by making the transfer absolute in-
stead of conditional on the terms proposed.
The existence of the Industrial School depends
on Mr. Little and it would probably collapse
if he left Marwar. The Government therefore
adheres to the order it has already passed
and leaves it to Mr. Little to take the
building on the terms laid down or not as
he thinks fit.
