1
GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

READ—the following papers :—

From Colonel H. SMALLEY, R.E., Superintending Engineer, III Circle, to the Chief Engineer, Public Works Department, dated Bellary, 6th May 1891, No. 267.

With reference to para. 3 of G.O., No. 1085 W., dated 20th April 1891, I have the honour to forward, for sanction of Government, plan and estimate, amounting to Rs. 15,000, for constructing a Telegraph office at Guntakal which have received the approval of the Director-General of Telegraphs.

2. The Superintendent of the Madras division has informed me that the necessary application for acquiring the land will be made by him to the Madras Government.

From Colonel H. SMALLEY, R.E., Superintending Engineer, III Circle, to the Chief Engineer, Public Works Department, dated Bellary, 16th July 1891, No. 1007.

I have the honour to resubmit the plan and estimate, amounting to Rs. 15,030, for constructing a Telegraph office at Guntakal revised in accordance with the instructions contained in your memo. No. 2650 C., dated 25th May 1891.

2. The cost of the site has been included in the estimate.

ORDER—dated 29th July 1891, No. 2040 W., Public Works.

The estimate, amounting to Rs. 15,030, for constructing a Telegraph office at Guntakal in the Bellary district is sanctioned.

2. A sum of Rs. 14,300 has been allotted for the work in the Imperial Civil Works budget estimate for the current year.

3. This sanction has been registered as Imperial No. 4 W. of 1891-92 and classified as Civil Buildings, Original Works.

TECHNICAL NOTE.

21.7.91

The plan & estimate
under revision
amounting to Rs. 15030
for constructing a Tele-
graph Office at Huntakal
in the Anantapur
District, has been sub-
mitted by the S.E. III
Circle for sanction
with reference to
Chief Engineer's memo-
randum No. 26506 of
25th May 1891.

The S.E. III Circle has
attended to the in-
structions contained
in the memorandum
above quoted.

22/7 229791

The present estimate
is increased from
Rs 15000 to Rs 15030 or
in excess by Rs 30.

The note on the previous
estimate of Rs 15000 is
put up in the file.

(C. 2 248).

The rates as far as
can be checked are fair.

Some of the rates are
higher, on which the schedule
rates for Anantapur Sub. Div.
are marked in pencil,
but a data list is
submitted by the S.E. III
circle.

The plan & estimate
have been countersigned
by the Director General
of Telegraphs.

St.
20.7.91.

But the present
estimate includes
the cost of the
site only.

NOTE OF REMARKS.

With reference to para 3
of G.O. No. 1085 of 20th
April 1891, the plan and
estimate the latter amount-
ing to Rs 15000 for construct-
ing a Telegraph Office
at Guntakal, Anantapur
District have been sub-
mitted by the S.E. III
Circle for sanction.

The amount of Rs 15000,
is divided as follows:-

Telegraph office	Rs 10698
Servants quarters	3105
Kitchen	546
Latrine	216
Well 30ft deep 8ft diam	435

Total Rs 15000

Compensation for land
is not provided in the
estimate as it is stated
in the report that a
site

site was selected by the Chief Superintendent of Telegraphs next to the Sub Post Masters quarters and as the land belongs to the Southern Maharashtra Railway Company, the Agent & Managers of the Company has been addressed to know on what terms the Railway Company will sell or rent out the land.

Particulars of Construction.

Main building

Foundation is to be 6 ft. deep i.e. 2 ft. concrete & 4 ft. rubble stone in chumam (2nd sort).

Basement 2 ft. high & is to be built with rubble stone in chumam (1st sort).

Walls of rooms are to be 14 ft high & to be built with rubble stone in chumam (1st sort), their walls to verandah rooms & a wall between Battery & Receiving rooms are to be built with brick in chumam.

The interior of the building is to be plastered with 2 coats of chumam & the exterior is to be pointed with chumam.

Flooring is to be of Cuddapah slabs over a bed of 3" concrete.

Roofing is to be Mangalore tiles, teak rafters & ceiling

ceiling with pine board $\frac{3}{4}$ " under rafters.

Roof timbers such as trusses, hip rafters, ridge piece & breasmembers are to be teak, common rafters & wall plates & are to be Santal. The scantlings of timbers are correct excepting the ridge piece, purlins & wall purlins, these are $6\frac{1}{2} \times 6\frac{1}{2}$ " in each case & seem to be too large.

It is therefore proposed subject to approval to alter them as follows.

Ridge piece 3×9 "

Purlins — 4×6 "

Wall purlins — 3×6 "

Please see section of ^{with iron king rod} truss for 18 ft. span in the type design of Talug ^(tile roof) Cutchery which is put up with estimate for reference.

The estimate now submitted for sanction is for Mangalore tile roof.

As the doorways are placed just under the trusses, the plan & estimate should be returned to the S.E.

III circle with request that their positions

2040
6

Distances from truss to peak is only 8 feet.

5×6 " is ~~not~~ ample for purlins — while 4×5 " might be allowed for wall purlins —

$6\frac{1}{2} \times 6\frac{1}{2}$ " for a ridge piece is not understood.

The details of the truss is not given, but there is no provision in the est. for iron work — straps — bolts &c — 3×9 " is about right for the Ridge piece.

It would be better if the truss were built

No. 20405 of 29 July 1891.

might be altered

Some of the rates which are marked in pencil are in excess of those given in the schedule of rates for the Southern Sub Div of the Bellary Division for 1888. But a data list is submitted.

The area of the main building is 3590 sq ft & the cost per sq ft will be Rs 2-15-8.

Contingencies & Petty Supervision are charged for at 5 percent each.

The plan & estimate have been countersigned by the Director General of Telegraphs.

Sft.
15-5-91.

level plate was supported in bracket, instead of being let into the wall -

The position of the masonry is objectionable.

The position of the main should be altered so as to remove these objections -

Cost of this work be reported -
