In reply to your endorsement No 343 m d dated 7th July 1891: I have the honor to state that the contract for the Madura Native College has not yet been arranged but probably will be before the end of this month. My reason for asking for only Rs 5000 is that I cannot depend on getting many bricks made before north east monsoon, I therefore calculated soon, I therefore calculated on starting the brickwork of foundations only in the beginning of February thinking by basement level by the end of March this work and the supply of timber in scantling and doors & windows about three-fourth wrought will come to the allotment asked for —
