3RD AUGUST 1891, No. 2092 W., PUBLIC WORKS.

GOVERNMENT OF MADRAS.
PUBLIC WORKS DEPARTMENT.

General.
Account.

READ—the following papers:—

From G. D. WYBROW, Esq., Superintending Engineer, I Circle, to the Chief Engineer, Public Works Department, dated Dowlaishweram, 5th June 1891, No. 465 G.D.

In submitting letter from the Executive Engineer, Godavari Eastern division, No. 141 S., dated 2nd June 1891, I have the honour to request that the modification of G.O., No. 1139 W., dated 24th April 1891, asked for by the Executive Engineer, may, in the circumstances stated, be sanctioned.

ENCLOSURE.

From the Executive Engineer, Godavari Eastern division, to the Superintending Engineer, I Circle, dated Dowlaishweram, 2nd June 1891, No. 141 S.

With reference to your No. 101-Gl. of 16th May 1891, on G.O., No. 1139 W., of 24th April 1891, I have the honour to bring to your notice that, in accordance with G.O., No. 1931 W., of 17th July 1890, the working expenses of the shops, *e.g.*, establishment, repairs to buildings, tools and plant, &c., were debited to "Irrigation, 42. Major Works, Working Expenses" up to the close of the official year 1890-91, and in consideration of this debit, 25 per cent. was charged to other than delta works up to 31st March 1891. Agreeably to the procedure sanctioned in para. 2 of G.O., No. 371 L., of 25th May 1886, no exception to this charge was taken by the Examiner, Public Works Accounts, except in the Government Order under reference.

2. If centage be omitted for other than delta works from 27th October 1890, as stated by the Examiner, Public Works Accounts, in his office note, dated 16th April 1891, Irrigation funds will have to bear a loss of about Rs. 5,700, and this the Examiner, Public Works Accounts, does not appear to have realized in giving his opinion to Government.

3. Revenue account of the delta should not, I think, be saddled with any loss on account of the working expenses of the shops. This will be obviated if centages already charged to the works unconnected with the delta and accepted by the Examiner are allowed to stand.

4. To withdraw or write back the centage in the supplemental accounts for March would, moreover, entail numerous adjustments and would materially affect the utilization of grants for Provincial and other works for the last official year.

5. Under the circumstances, I have the honour to request that you will be good enough to move the Government to modify G.O., No. 1139 W., of 24th April 1891, as it is but fair that Provincial and other works should be charged with centage on account of the working expenses of the Dowlaishweram shops, since these were classed under irrigation up to 31st March 1891.

Office note from the Examiner, Public Works Accounts, dated 8th July 1891, No. 3834.

ORDER—dated 3rd August 1891, No. 2092 W., Public Works.

On reconsideration, His Excellency the Governor in Council resolves to cancel the orders contained in G.O., No. 2838 W., dated 27th October 1890, with effect from

the 1st April 1891. Twenty-five per cent. will continue to be charged on all work done in sub-divisional workshops for Public Works other than Provincial as well as for other departments and for private parties.

2. The charges made in the accounts for 1890-91 will not be disturbed.

I think the Examiner's suggestion went a
 great deal too far. It is eminently proper
 no doubt to make no charge against the
 P.W. for imperial works but the difficulty
 is apparently, increased at the expense of
 provincial funds. If charges are charged
 to other departments & private persons, I
 don't see why they should not be charged
 against imperial works. The analogy of
 a State Railway workshop not charging for
 work for the home line is a false one. It
 would only justify absence of charge against
 provincial funds for provincial works,
 but not free work for imperial funds.
 I think the order should be revised. The
 shops should either remain imperial, charge
 provincial works, then be, or provincial
 charging imperial be.

The Executive Engineer Godavari Eastern Division represents that it will give trouble to write back centages erroneously charged for work turned out by the Dowlaishwaram Workshops for this (Madras P.W.) Department, and on this ground I would recommend that Government be moved to allow the centages already charged to stand so far as the accounts for 1890-91 are concerned. Such centage charges should however cease absolutely from and after 1st April 1891.

Sir,

2/1

With reference to your No. 101 G.O. of 16/5/91 on G.O. No 1139 Wd of 24/4/91, I have the honor to bring to your notice that, in accordance with G.O. No 1931 Wd of 17/7/90, the Working Expenses of the shops & Establishment, repairs to buildings, Tools and Plant etc were debited to "Irrigation 42 Major Works Working Expenses" up to the close of the official year 1890.91 & in consideration of this debit, 25 per cent was charged to other than Delta Works up to 31st March 1891. agreeably to the procedure sanctioned in para 2 of G.O. No 371 S of 25/5/86, no exception to this charge was taken by the Examiner P.W. Accounts kept in the G.O. under reference.

2 If Centage be omitted for other than Delta Works from 27th October 1890, as stated by the Examiner P. W. Accounts, in his Office note dated 16/4/91, Irrigation Funds will have to bear a loss of about Rs 5700 & this, the Examiner P. W. Accounts does not appear to have realized in giving his opinion to Government

3 Revenue Accounts of the Delta should not I think be saddled with any loss on account of the Working Expenses of the shops. This will be obviated if Centages already charged to the Works unconnected with the Delta & accepted by the Examiner are allowed to stand.

5 Under the circumstances, I have the honor to request that you will be good enough to move the Government to modify G.O. No 1139 W of 24/4/91 as it is not fair that Provincial & other Works should be charged with Centage on account of the Working Expenses of the Dowlaishwaram shops.
