READ—the following paper :—

From Colonel J. M. SMITH, Inspector-General of Jails, to the Chief Secretary to Government, dated Ootacamund, 13th July 1891, No. 263.

I have the honour to submit, for the sanction of Government, a plan and estimate, amounting to Rs. 4,920, for extending the workshops of the Central Jail at Trichinopoly.

2. At my last inspection of the jail it seemed to me that the men employed at intra-mural labour were too much exposed to the excessive heat of the sun owing to there not being sufficient workshop accommodation. All preparation of warps for cumbly and drill weaving has to be done outside in the yards owing to want of room in the workshops and I think it must affect the health of the convicts.

3. I ascertained that the four present blocks used for workshops, there being two workshops in each block divided by a wall, could be extended 30 feet, and directed the Superintendent to get an estimate made out, which I have now the honour of submitting for sanction.

4. Convict labour is not available at present, as there are several important departmental works going on inside the jail, such as drainage, building new separate latrines and the central kitchen.

Approved and transferred to the Public Works Department.
