GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

READ—the following paper:—

Proceedings of the Board of Revenue (Separate Revenue), dated 3rd August 1891, Mis. No. 2468.

C. S. CROLE, Esq., C.S.

Read—G.O., dated 16th July 1891, No. 4055, Revenue.

Resolution—dated 3rd August 1891, Mis. No. 2468.

With reference to the Government order read above, the Board begs to state that a sum of Rs. 3,650 was sanctioned by the Board in February last for effecting certain improvements to the salt gollah at Tellicherry, and, as provision had already been made for the work in the salt budget, the Accountant-General was requested to place the necessary funds at the disposal of the Public Works Department in view to the work being executed before the close of 1890–91, as the Deputy Commissioner, Southern division, considered that this was possible. The Executive Engineer, West Coast division, however, reported that it was impossible to complete the work before the 31st March 1891 and requested that the grant might be re-allotted. This was accordingly done and the estimate and plan relating to the work were ordered to be sent to the Executive Engineer as desired by that officer in view to the formal sanction of the Superintending Engineer being obtained thereto.

2. There is sufficient provision * for the work in the salt budget and all that seems necessary is to transfer the requisite funds therefrom to the Public Works Department. This, it is presumed, will be done by the Accountant-General, to whom a copy of Board's Proceedings on the subject has been communicated. Under the circumstances, no special allotment seems necessary.

* *Vide* item No. 180, in enclosure H, to statement No. I, page 46, of Board's Proceedings, No. 497, dated 24th October 1890.

3. The work referred to is of an urgent nature, as the gollah is intended for the storage of large quantities of salt, which are required for issue to the fish-curing yards in the Tellicherry circle. Its execution cannot be postponed without great risk of loss to Government from the destruction of salt by the collapse of the building, which is reported to be in a very dangerous condition.

"	"	"	VI "	"	8th	"	"	219 T.C.

ORDER—dated 25th June 1891, No. 1707 W., Public Works.

With the papers above recorded, Superintending Engineers submit statements of demands under Imperial for incomplete works of 1890-91 and for new works proposed for execution during the current official year.

2. Superintending Engineers and the Consulting Architect to Government having been instructed to apply direct to the officers concerned for funds required for incomplete and new minor works under Imperial Military and Civil works, the demands comprise major works only and the grants applied for amount to—

Imperial Military Works.

	Rs.
Incomplete major works	*Nil.*
New major works	19,194
Total ...	19,194

Imperial Civil Works.

Incomplete major works	*Nil.*
New major works	3,650
Total ...	3,650

3. A sum of Rs. 4,740 was reserved in the budget for incomplete major works under Imperial Military, but as there are no demands for incomplete works, a sum of Rs. 2,824 is appropriated for the construction of sheds for 12 bullocks and 10 mules at Malapuram with reference to para. 5 of G.O., No. 1023 W., dated 13th April 1891. The balance of the reserve, viz., Rs. 1,916, is allotted for reconstructing the roof of hospital wards Nos. 12 and 13 of the 1st Pioneer lines at Trichinopoly, the early construction of which has been strongly urged by the Military authorities. The Government of India having been requested to provide a special allotment for the work—*vide* letters Nos. 829 W. and 1235 W., dated 21st March and 4th May 1891 respectively—that Government will be informed that a sum of Rs. 2,484 only, or Rs. 3,092 inclusive of establishment and tools and plant charges, is now required.

4. The only work under Imperial Civil works, for which a grant has been applied for, is improvements to the salt gollah at Tellicherry. No allotment has been made for the work, as funds are not available with the Government under Imperial Civil works, Salt. The Revenue Department will be requested to state whether it is intended to carry out the work during the current official year, and if so, to explain the necessity and urgency for the same in view to application being made to the Government of India for a special allotment.

5. The additional grant of Rs. 120 required for the Tanjore division under Imperial Military repairs is sanctioned from the reserve with the Government under that head.

6. Ordered that a copy of these Proceedings be forwarded to the Government of India, Military Department, for information with reference to para. 3.
