4TH SEPTEMBER 1891, No. 2357 W., PUBLIC WORKS.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

READ—the following paper :—

From Major D. McN. CAMPBELL, R.E., Superintending Engineer, V Circle, to the Chief Engineer, Public Works Department, dated Chépák, 24th August 1891, No. 400 W.

With reference to No. 2250 W., of 18th August 1891, I have the honour to inform you that I consider the present Executive Engineer and staff are quite able to cope with the works in the Chingleput district and that no alteration is necessary. If, however, the north-east monsoon unfortunately fails and there is an increase in the number of relief works, it will be advisable to appoint an Executive Engineer and staff specially to have charge of these works.

2. I may here repeat the opinion that I have before expressed that, if the distress increases to a famine, when employment will have to be given to a large number of laborers, the present system of affording relief by work on scattered tanks will break down for want of supervision and eventually for want of works. Suppose it should be necessary to start 50 of these isolated works and this is by no means unlikely if there is a failure of the next monsoon, that would mean that 50 upper subordinates would have to be employed in addition to others preparing estimates for more works.

ORDER—dated 4th September 1891, No. 2357 W., Public Works.

Communicated to the Revenue Department with reference to G.O., dated 13th August 1891, No. 744, Revenue.

SUPERINTENDING ENGINEER'S OFFICE,

V Circle, Madras.

Chepak, 24 August 1891.

From

Major D. McNeil Campbell RE

SUPERINTENDING ENGINEER, V CIRCLE,

To

THE Chief Engineer
P.W. Department

SIR,

Enclosures.

With reference to No. 2250 W of
18th August 1891: I have the honor to
inform you that I consider the present
Executive Engineer and staff are quite
able to cope with the works in the Chingleput
District, and that no alteration is
necessary. If however the North East
Monsoon unfortunately fails and there
is an increase in the number of relief
works it will be advisable to appoint
an Executive Engineer and staff specially
to have charge of these works.

I may here repeat the opinion
that I have before expressed that
if the distress increases to a famine,
when

When employment will have to be
given to a large number of labourers
the present system of affording relief
by work as scattered tanks will break
down for want of supervision and
eventually for want of works. Suppose
it should be necessary to start 50
of these isolated works and this is
by no means unlikely if there is a
failure of the next monsoon, that
would mean that 50 Upper-Subordinates
would have to be employed in addition
to others preparing estimates for more
works.

I have the honor to be
Sir,

Your Most Obedt Servt

J. W. Campbell Major Esq
