GOVERNMENT OF MADRAS.

FINANCIAL DEPARTMENT.

READ—the following paper:—

From W. P. AUSTIN, Esq., C.S., Acting Superintendent of Stationery, to the Chief Secretary to Government, dated Madras, 10th July 1891, No. 1079.

I have the honour to submit my annual report on the working of the Stationery Office for the official year 1890–91, with the usual Statements A to E enclosed.

2. The following statement shows the results of the year under review compared with those of 1889–90:—

	1889–90.	1890–91.
	RS.	RS.

Value of issues during the year	5,03,951	4,48,746
Balance at the end of the year	4,51,428	4,40,706

3. *Receipts.*—The particulars of receipts are as follows:—

	1889–90.	1890–91.
	RS.	RS.

(2) Value of stores obtained from Messrs. Baker and Co., London	..	2,670

(4) Value of country articles purchased locally ..	2,51,517	2,49,619

(10) Value of stores adjusted on account of the variation of rates	25,843	10,833
Total ..	5,04,009	4,38,024

4. *Item No.* 1.—The figures under this head include the value of stores due on previous years' indents on the Secretary of State received in the year. In Rs. 1,64,570 is included a sum of Rs. 8,901 and in Rs. 1,48,239 a sum of Rs. 41,528.* Thus the actual receipts of the year 1890–91 are Rs. 1,06,711 against Rs. 1,55,669 of 1889–90. The decrease in 1890–91 is partly due to the omission of drawing and mathematical instruments on the Home indent, there having been a sufficient stock on hand, and partly to the reduction in the indent owing to the fall in the issue of stationery to the public offices in the last few years.

	RS.
* Value of stationery	24,920
„ drawing and mathematical instruments	16,608
Total ..	41,528

5. *Item No.* 2.—My indent on Messrs. Baker and Co. for school books and materials was submitted in May 1889, but the articles were received in August 1890 and amount in value to Rs. 2,670 against Rs. 1,886 of the previous year. The increase is chiefly due to the provision of 50 quires, drawing cartridge paper, valued at Rs. 2,276, for the classes of the non-commissioned officers and men, sanctioned in G.O., dated 13th November 1889, No. 7894, Military. My indent for the year 1890–91 was complied with by Messrs. Baker and Co. at the beginning of 1891–92, and the receipts, therefore, will appear in the accounts of this year.

6. *Item No.* 3.—The articles of European manufacture purchased locally are as follows:—

		Rs.	A.	P.
(1)	8 Bibles, pocket, 24mo.	7	8	0
(2)	3 Prayer Books, 24mo.	3	12	0
(3)	6 do. 32mo.	5	4	0

(17)	1 ream colored paper, mottled	9	8	0
(18)	1 lb. violet ink	2	2	0
(19)	22 lb. printing red ink	95	12	0
(20)	2 lb. green ink	4	4	0
	Total ..	1,482	3	0

7. *Item Nos.* (1) *to* (5).—Bibles and Prayer Books were purchased as usual for the use of drummers and musicians of the Military Department; the Hindustani books and prepared chalk were purchased for the use of the British regimental schools; the first has usually been purchased locally, and the second was bought because Messrs. Baker and Company made a mistake by supplying me with colored instead of white chalk on my last indent. The charges have been met out of the Military budget: *vide* G.O., Financial, No. 190, dated 31st January 1883. Ten cyclostyles and 36 bottles cyclostyle ink were purchased for, and supplied to, the Collector of Nellore with reference to the Board's Proceedings (Land Revenue), dated 22nd April 1890, No. 1337, Routine, and their value—viz., Rs. 401—was recovered from him. Spare cyclostyle pens not being usually kept in stock, one was purchased on an urgent demand of the Collector of North Arcot. Fifteen quires carbonic paper and 12 boxes eyelets were purchased for the Engineer-in-Chief, East Coast Railway, who paid for the same. Press blanket was hitherto obtained from the Egerton Woollen Mills in the Punjab, but this mill having failed, 12 yards of it had to be purchased locally on account of the Government and District Presses. Printers' varnish, colored paper, mottled, and violet ink, not usually kept in stock, were purchased to comply with the indent from the Commissioner of Coorg, sanctioned in G.O., Financial, dated 24th February 1891, No. 146. The rest of the articles, valued at Rs. 171, was purchased to meet urgent demands, the stock of the same having run short and having not been replenished in time by fresh supplies from England.

8. *Item No.* 4.—The figures under this head include value of paper, &c., issued from the store for making blank books, envelopes, &c., and brought to account again when received from the contractor in the shape of books, &c. After deducting the value of these nominal receipts, the value of country articles purchased locally in

2440/2

9. *Item No.* 5.—Rupees 140 represent the value of 91½ quires watermarked paper of Foolscap size, demanded by the Controller of Military Accounts for printing Military Account Form 8 (Pay warrants). The paper available in the stock, being of a larger size, could not be utilized for this purpose without much wastage, and I had therefore to obtain some from the Stationery Office, Calcutta.

10. *Item No.* 6.—Rs. 499 represent the value of wooden articles (inkstands, rulers and flats) obtained during the year from the Gun Carriage Factory.

11. *Item No.* 7.—Of Rs. 4,264, Rs. 2,673 is the value of drawing and mathematical instruments transferred to this department by the General Superintendent, Public Works Stores, under G.O., dated 22nd June 1889, No. 547 (Public Department), and the remainder is made up of the values of —

		Rs.	A.	P.

(2)	50 Leather envelopes	108	9	7
(3)	400 Pasteboards, 14 × 9	10	6	8
	Total ..	1,590	14	3

12. *No.* 1.—Rupees 1,471–14–0 is the cost of service books printed and supplied by the Superintendent, Government Press, for which paper, binders' cloth and tape were supplied from this office.

13. *No.* 2.—50 leather envelopes, 19″×6″, were obtained from the Inspector-General of Ordnance for British hospitals.—G.O., dated 29th November 1889, No. 8312, Military.

14. *No.* 3.—The Executive Engineer, Military Works, Belgaum district, having indented for pasteboards of the size (14″×9″), this had to be cut by the Government Press from larger boards supplied, and were received back into store in the size required.

15. *Item No.* 8.—The figure under this, as detailed below, represents the cost of articles returned to this department by officers either as their dead stock or for exchange:—

	Rs.	A.	P.
Value of articles returned by Commissary-General, Madras	8,715	12	11

Do.	do.	other departments	756	12	0
		Total	17,072	1	7

16. *Item No.* 9.—Of Rs. 3,206, Rs. 529 is the value of articles adjusted under receipts on account of short receipts reported by indenting officers, &c.; Rs. 1,251 is the value of articles which on account of slight differences appeared hitherto under different heads in the ledgers, but which have now been transferred to other similar heads and therefore treated as receipts; Rs. 1,343 is the value of the excess found in stock and credited in the accounts under G.O., dated 7th January 1891, No. 9, Financial; Rs. 68 is the value of 250 lb. of damaged red sealing wax which was remelted, converted into sticks and received again into store; and the remaining 10 rupees is the value of certain drawing instruments taken out of mathematical instrument boxes for issue to officers on urgent indents.

17. *Item* 10.—Rs. 10,833 is the difference of value arising from the fluctuations in the prices of the articles in different years. This was explained in my letter, No. 1580, dated 14th October 1890, paragraph 3, embodied in G.O., dated 8th November 1890, No. 795, Financial.

18. *Substitution of Country for European Articles.*—The statement marked F appended shows the different articles of Indian manufacture purchased during the year in lieu of similar European articles; the net saving effected thereby is estimated at Rs. 14,845 against Rs. 45,669 in the previous year. This is because of the general decrease in the quantities of the several classes of stationery obtained in 1890–91, and also the result of a loss of Rs. 3,670 under printing and colored papers. In comparing the prices of the locally-purchased printing papers with their probable English value, the rates from the latest English invoices available in the office, which were received many years ago, when these were obtained from England direct, were hitherto adopted. Considering, however, the cheapness of English printings in the local market, I sent last year to the Director-General of Stores, India Office, specimen paper of the white printing now obtained from the Bally Paper Mills at Calcutta, and ascertained that a similar quality could be had in the London Market at $2\frac{1}{2}d.$ per lb. This rate, which I adopted this year, is less than that of previous years and hence the reduction.

19. *Issues.*—The total number of indents received during the year was 992 against 935 in 1889–90. Of these, 247 were supplemental indents received from the following departments and admitted on explanation being furnished:—

Postal	7
Commissioner, Revenue Settlement, Land Records and Agriculture	1

In the previous year the number of supplemental indents was 168.

20. A comparative statement of the details of issues in 1889–90 and 1890–91 is subjoined:—

	1889–90. Rs.	1890–91. Rs.
(1) Value of articles supplied to public offices, free of charge, Provincial	3,87,898	3,80,288
(2) Value of articles supplied to public offices, free of charge, Imperial	7,043	11,661
(3) Paper, &c., supplied for blank books, &c.	9,577	12,093
(4) Value of damaged articles disposed by auction	8,954	3,261
(5) Adjustments with reference to stock-taking and transfer of heads	18,404	1,604
(6) Articles issued on payments	19,617	31,776
(7) Adjustments on account of variation of rates, &c.	52,458	8,063
Total	5,03,951	4,48,746

21. *Item* (1).—The figures include the value of drawing and mathematical instruments issued to public departments under G.O., dated 22nd June 1889, No. 547, Public. After deducting Rs. 1,690 and Rs. 9,814, which represent the values of drawing and mathematical instruments issued in 1889–90 and 1890–91, respectively, the figures stand thus—Rs. 3,86,208 in 1889–90 and Rs. 3,70,474 in 1890–91; so that the value of stationery issues alone to public departments in the year under review is less by Rs. 15,734 than in the previous year. Statement E appended to this review shows in detail the value of issues to the several departments during 1890–91, as required in G.Os., dated 23rd November 1888 and 21st January 1889, Nos. 875 and 27 (Financial), respectively.

22. *Item* (2).—The increase under this is chiefly owing to supplying the Census Department with articles to the value of Rs. 4,444 during the year.

23. *Item* (3).—The details of this are as follows:—

	1889–90. Rs.	1890–91. Rs.
Paper issued for blank books, &c.	6,996	10,284
Do. for envelopes	274	685
Do. for service registers	1,927	313
Do. for blank forms	334	690
Paper, &c., issued as samples	46	121
Total	9,577	12,093

The expenditure is only nominal, as paper, &c., supplied is returned in the shape of blank books, covers, &c.

24. *Item* (4).—Of this, Rs. 3,125 is the value of articles noticed as damaged at the last stock-taking and sent to public auction under G.O., dated 7th January 1891, No. 9, Financial, and the remainder is the value of articles returned by officers as damaged and sold by public auction.—G.O., dated 20th April 1888, No. 340, Financial.

25. *Item* (5).—Of this, Rs. 1,478-11-6 is the value of the articles found deficient in stock and written off the accounts under G.O., dated 7th January 1891, No. 9, Financial, and the remaining Rs. 124-14-7 is the value of articles written off the accounts and brought under other heads in the ledger, for reasons explained in paragraph 16.

26. *Item* (6).—The supply of stationery on payment to the East Coast Railway Department and to the District and Taluk Boards to the extent of Rs. 10,684 and Rs. 9,429 in this year, against Rs. 20,017 and Rs. 4,346, respectively, in 1889-90, accounts chiefly for the increase in this item.

27. *Item* (7).—Rs. 8,063 is the difference of value adjusted under issues on account of the variation in rates corresponding to that under receipts (*vide* paragraph 17).

28. The subjoined statement shows the value of stationery supplied to each department during 1889-90 and 1890-91 :—

29. I would here mention that during the year under review, as in the previous year, every endeavour was made to supply the largest number of indents with as little stock in store as possible; in view both to accommodate the stock on hand in the buildings available and to prevent any article becoming dead stock. Large quantities of articles which have been in store for many years were this year issued in the place of other articles asked for, and thus much old material was got rid of.

2460/4

30. The value of stock at the close of the year was Rs. 4,40,706 against Rs. 4,51,428 in 1889-90; but excluding the value of the mathematical instruments, which are a recent addition, the figures are Rs. 4,16,125 and Rs. 4,35,143, respectively.

31. Under G.O., dated 15th March 1890, No. 218, Financial, this department being required to supply public offices with rubber stamps and inks of different colours, a contract for the same was entered into with Messrs. Addison and Co., and supplies were accordingly made. The expense incurred, as shown below, was met from the general savings in the allotment for the year :—

38. *Items* 5 *and* 6.—The increase under these items is due to the supply of a larger number of indents in 1890–91 than in the previous year.

39. *Item* 7.—The store room of the Stationery office having been under repairs, the stores were kept in the old Town Police Court buildings for a few months and the municipal assessment for this building was consequently charged against this department.

40. *Item* 9.—In the year under review, furniture to the value of Rs. 218 (each price not exceeding Rs. 50) was purchased for the use of the office. The charges for repairing drawing and mathematical instruments were also met from this head and hence the increase. Other items call for no remarks.

41. *Service Books.*—The service registers of the employés in the Stationery office have been duly written up with reference to G.O., dated 22nd February 1886, No. 396, Public Department.

42. *Consumption.*—I annex the usual statements showing the consumption of articles of stationery in the several departments noted in the margin, during the year 1889–90, compared with that of the preceding year. These show the actual quantity consumed under each class of stationery, the figures being taken from the indents of officers for 1891-92. The several descriptions of paper consumed are grouped as writing, printing, country and cartridge papers, the Europe and the country red sealing-wax are treated as one head, white and red tape as one, country and Europe twines as one, the rest of the articles, viz., black ink-powder, fuchsine, and wax-cloth being shown separately. Statement 11 is an abstract of the Statements 1 to 10.

43. From Statement 11 it will be seen that the total expenditure during 1889–90 is less than in 1888–89, except in the cases of writing paper, cartridge paper, fuchsine and red sealing-wax, the increase in these being reams 673, reams 81, 5 oz. and 243 lb., respectively; in all other articles the total expenditure during 1889–90 is less than the previous years.

45. In all other departments the consumption in 1889–90 is generally less than in 1888-89, but where it is more, the increase is trifling and does not call for notice.

46. The Proceedings of Government, Financial Department, No. 908, dated 4th December 1890, having been received after many of the larger indents for the year had been complied with, the several orders regarding the supply of paper, &c., could only be applied to the indents received after date of the proceedings.

47. All indents have, however, been very carefully checked, and, in spite of the large number of them complied with in 1890–91, viz., 992, there has been a fall in the issues to the extent of Rs. 15,734 compared with the issues of the last year. Comparing the issues in 1888-89, *i.e.*, Rs. 4,74,622; in 1889-90, Rs. 3,86,208*; and in 1890-91, Rs. 3,70,474*, with the issues of 1887-88, *i.e.*, Rs. 5,48,765, the savings effected in each year (*i.e.*, Rs. 74,143, Rs. 1,62,557, and Rs. 1,78,291, respectively) make a total of Rs. 4,14,991.

* These figures exclude Rs. 1,690 and Rupees 9,814, respectively, being the value of drawing and mathematical instruments.

48. It is not possible at present to further cut down the indents as they are now submitted, but I expect to show further savings when I have taken over the check and supply of forms to districts.

ORDER—dated 22nd August 1891, No. 789, Financial.

The administration report of the Superintendent of Stationery for 1890–91 again indicates that the operations of the department are now conducted with greater judgment and care than in the past, and that the large savings effected during the last three years will be followed by others.

2. The decrease of ·46 lakh on the purchases of Indian articles in lieu in those of European manufacture in 1889–90 was succeeded by a similar decline of ·15 in the year under review. Under the item of "Stores obtained from the Secretary of State," there was a fall of ·16, due in part to the reduction in the indent owing to the smaller issues of stationery to public offices. In the value of those issues, there was again a considerable fall. The charges on this account debitable to Provincial funds in the last four years have been as shown below :—

	LAKHS.
1887–88	5·49
1888–89	4·75
1889–90	3·86
1890–91	3·70

Further savings are expected when the system for checking and supplying forms has been revised.

3. The Government notes that endeavours were made to reduce the quantity of old stock, and that much of it has been supplied to districts.

4. The figures in section 31 of the Superintendent's report are suggestive of extravagance in some offices in the use of rubber-stamps. Care should be taken to avoid unnecessary demands for these.

5. The Government considers that steps should be adopted to reduce the number of supplemental indents. The exercise of a very little care and forethought would have obviated the need for submitting the majority of the 247 such indents admitted during the year, and the Superintendent will in future refuse to comply with any requisition unless there is the clearest proof that the need for the article could not be foreseen and that it would not be against the public interests to anticipate the next annual indent.

6. The attention of the officers concerned will be drawn to the statement in section 44 of the Superintendent's letter, and they will satisfy themselves by personal inquiry that the increased consumption of certain articles was not due to neglect or extravagance on the part of the officers responsible.
