11TH SEPTEMBER 1891, No. 2441 W., PUBLIC WORKS.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

READ—the following paper :—

Proceedings of the Board of Revenue (Land Revenue), dated 15th July 1891, No. 420.

THE HON. MR. J. GROSE.

Read—the following letter from G. F. T. POWER, Esq., Acting Collector of South Arcot, to the Secretary to the Commissioners of Land Revenue, dated Cuddalore, 22nd November 1890, Ref. on No. 5750-Eng. :—

I have the honour to submit a plan and estimate of Rs. 7,080 for constructing rooms for the Treasury Deputy Collector, treasurer and stationery stores received from the Superintending Engineer, V Circle, and to request that you will be good enough to obtain the sanction of Government for the same. This proposed building is a part of the plan for the gradual improvement of my office.

Reference on the above, dated 15th December 1890.

The Collector is requested to forward a plan of the entire buildings, so that the Board may know how the block, now proposed, is situated with regard to the rest.

2. The greater part of the treasurer's room appears to be used as a waiting room and passage to the stationery room and both are wholly cut off from the Deputy Collector's room; it should be stated if this is advisable.

(Signed) H. A. SIM,
Acting Secretary.

Read—the following letter from G. F. T. POWER, Esq., Acting Collector of South Arcot, to the Secretary to the Commissioners of Land Revenue, dated Cuddalore, 30th April 1891, No. 607-Ind. :—

I have the honour to submit the plan called for in General Register No. 3922 of 1890. You will perceive that the office consists of a long low line of buildings forming sides of a square, built originally as barracks for European soldiers and cadets. They are narrow and low and are unfit for an office; indeed it would be difficult to find in any other district an important office housed in buildings so utterly unfit for the pupose.

2. A new room (marked A . . A on the plan) was built in 1886 for the Collector and District Magistrate in accordance with the proposals made by the Board for the gradual improvement of the office, embodied in G.O., dated 26th January 1883, No. 294 W. In continuation of those proposals, a new treasury room was built last year which extends up to the line B . . B in the plan. The rooms for the Treasury Deputy Collector and the treasurer, now proposed, and to which the Board object, are a continuation of the plan of gradually rebuilding the office.

3. My own opinion is that the place is not a good one. It would, I consider, be far preferable to build a wider block of buildings (for which ground is available both to the south towards the parade ground and to the north towards the square tank shown on the plan) with some upstair rooms and provide therein the accommodation required including that needed by the District Forest-office which is at present housed in a rented building on the other side of the parade ground. Two of the existing lines of barracks, those namely on the west and north, could then be got rid of altogether. The Government Architect might be asked to design a suitable building.

Resolution—dated 15th July 1891, No. 420.

Submitted for the orders of Government.

2. In G.O., dated 26th January 1883, No. 294 W., Government accepted the Board's recommendation, which was arrived at on mature consideration and in consultation with Mr. Chisholm, the then Government Architect, that the several departments connected with the Collector's office at South Arcot needed to be improved, that at least twelve good rooms and a set of *ante* rooms should be provided for the use of the several officers concerned, and that the improvements should be gradually effected, commencing with the Collector's cutcherry, which is situated at the east end of the present range of offices.

3. In accordance with the sanction accorded in this Government order, the Collector's office was first taken in hand and was completed in 1886 at a cost of upwards of Rs. 8,500.

4. The treasury room adjoining the Collector's office on the west was next taken up and was finished last year, the expenditure incurred being about Rs. 5,300.

5. Pursuing the arrangement approved of by Government, the Collector in the first of the letters read above proposed to rebuild the rooms next to the treasury and accordingly sent a plan and estimate for Rs. 7,080. The rooms proposed to be built were three in number and were intended, one for the Treasury Deputy Collector, one for keeping stationery and one for the treasurer. Before submitting the estimate for the sanction of Government, the Board wished to have before it a plan of the entire buildings so that it might know how the block, now proposed, was situated with regard to the rest of the buildings.

6. With the second letter, the Collector forwards the plan called for, adding incidentally that the present arrangement is not a good one and that it would be better to build a wider block of buildings with some upstair rooms, &c.

7. The Board, however, considers that it is useless to reopen the question of accommodating the several offices in a different way from the one already accepted by Government and in accordance with which a good deal of money has been already spent. It accordingly recommends that the plan and estimate, submitted with the first of the letters, be approved and the necessary provision made in the Public Works budget.

NOTE OF REMARKS.

Constructing rooms for the Treasury Deputy Collector, Treasurer and stationery store at the Collector's Office at Manjakuppam, South Arcot District.

Amount of Estimate Rs 7080

The rooms now proposed to be built are in continuation of the Treasury Strong room, to the west, and this proposal forms part ~~of~~ for the gradual improvements of the Collectors Office. The proposed accommodation consists of 3 main rooms, each 24'×18' and they are to accommodate the Treas: Dy. Collectors Office, Stationery store and the Treasurers Office. The improvements are not marked in the ground plan (tracing) of the Collectors Office & no cross section of the Treasury is given so as to ascertain whether

tiled

tiled verandahs as now proposed for the Dy. Collectors Office &c. will exist. From Cross section A A of the Collectors Office the verandahs, both front and rear are terraced.

The foundations for the proposed rooms are to be 6 feet in depth, the lower 2 feet to be of concrete of brick jelly in lime & the upper 4 feet of brick in mortar.

The superstructure walls are to be 18" thick & built with brick in lime & both faces plastered with 2 coats of chunam. A damp proof course 3/8" thick of asphalte will be laid on top of basement of all walls of rooms.

The floors are to be of 9" of brick jelly concrete, the lower 6" of ordinary lime and the upper 3" of cement.

Roof of the main rooms to be terraced with brick on edge & the verandahs & verandah rooms tiled with flat & pan tiles. All roof timbers to be of teakwood & painted with 3 coats of Carson's paint.

Doors of teakwood ½ panel & ½ venetian and the windows full venetian & painted.

The rates appear rather high for a few sub-heads such as brickwork, terracing & plastering &c. The schedule rates of the Division is noted in pencil against them, but data has been furnished for these high rates hence they may be passed.

Provision is made in the Estimate for dismantling the old building at a cost of Rs 175 and credit given for Rs 220 being value of old materials available. Contingency & Petty supervision are calculated at 3 & 5 p.c. respectively.

The scantlings for roof timbers are ~~fair~~ correct.

The plan & estimate have been countersigned by the Collector of the District and approved in the Revenue Dept.

The plinth area of the building is 3159 Sqft and its cost per Sqft will be Rs 2-3-10.
