MILITARY DEPARTMENT, 1891, No.

GOVERNMENT OF MADRAS.

MILITARY DEPARTMENT.

Native Lines—Hutting.

Read the following papers:—

No. . *From Colonel E. H. EYRE, Officiating Quarter Master General, Madras Army, to Brigdr.-Genl. A. KENNEY-HERBERT, Secretary to Government, Military Department; dated Ootacamund, 5th July 1890, No. 1677-B (Native Lines—Hutting).*

With reference to O.G. No. 3794, dated 7th June 1890, copy of which was furnished to this office "for information," in which is recorded certain correspondence regarding the construction of lines for the Native officers, non-commissioned officers and men of His Excellency the Governor's Body Guard at Madras, together with the order passed thereon, communicating the same to the Superintending Engineer, Military Works, Madras Command, with a request that he would consider what steps should be taken for the provision of funds for carrying out this work, that officer, on the 11th idem, transferred the report, plan and estimate, amounting to Rs. 34,251, to this office for disposal, the construction of hutting lines for Native troops, forming no part of his duties, and for which no funds are placed at his disposal, I am desired by His Excellency the Commander-in-Chief to submit that as all the buildings composing the Body Guard lines are military buildings borne as such upon the returns of military buildings of the Madras district, and the ground within the limits of the Body Guard lines is in military occupation, no committee should have been held either to consider a different occupation of the ground or to effect alterations in existing buildings without a previous reference to him, nor should the services of the Executive Engineer, Madras Division Military Works, have been utilized either to attend the committee which was convened under the orders of the Military Secretary to His Excellency the Governor, or to prepare a report and estimate on such committee's recommendations, without the previous sanction of the General Officer Commanding Madras District, under whom that officer is serving, being obtained.

2. In connection with this, I am desired to observe that in 1864, when it was proposed to provide His Excellency the Governor's Body Guard with hutting lines, the procedure adopted by Major Macgregor, the then Commandant of that corps, was to address this office in the first instance, by which his application was transferred to the General Officer Commanding Madras District, and all subsequent correspondence on this subject was conducted through that officer in the usual manner.

Again in 1877, Major Galloway, then Commanding the Body Guard, being desirous that Government should purchase from the municipality the model dwellings at Chintadripet, occupied by the syces and followers of the Body Guard, addressed this office through the General Officer Commanding Madras District, and the order passed by the Government of India thereon was communicated to His Excellency the Commander-in-Chief, and through this office and the General Officer Commanding Madras District to Major Galloway. Even so late as the years 1885, 1886 and 1888, when various alterations and improvements to the drains and an additional building were required in the Body Guard lines, the plans and estimates were submitted, through the Officer Commanding Madras District, to this office, for the approval and sanction of His Excellency the Commander-in-Chief.

3. The Superintending Engineer, Madras Command Military Works, is an officer especially appointed by the Government of India for the purpose of advising

His Excellency the Commander-in-Chief in all matters relating to military buildings and the requirements, as regards accommodation of the troops, and conducts all correspondence relating to these subjects (except that to the subordinate officers of his establishment) through this office, and I am to request that this channel of communication may, in future, be adopted as regards references on subjects (other than those connected with civil public buildings) which require to be eventually laid before the Commander-in-Chief for approval and sanction.

4. As regards the plan, estimate and specification prepared by the Executive Engineer, Military Works, Madras Division, I am desired to observe that they do not agree either in the space allowed to each rank or the materials to be employed with the standard plan of huts for Native Cavalry, according to which the cost of lines for the number of men composing the Body Guard is estimated not to exceed Rs. 14,000, instead of Rs. 34,251 as estimated for. Under the recent orders of the Government of India,* all except skilled labour has to be provided by the troops themselves, or paid for by them, if they are unwilling to undertake it, the cost only of materials being paid for by the State.

* No. 968, dated 7th February 1890.

5. His Excellency the Commander-in-Chief regrets that no funds at his disposal are available for the construction of lines for the Body Guard, the Rs. 50,000 granted annually by the Government of India† for the construction and purchase of lines for Native troops being appropriated for some time to come for the completion of lines for Cavalry and Infantry already commenced at Bangalore and Bellary. Taking into consideration also the position of the Body Guard lines on the side of one of the principal and most frequented thoroughfares of Madras, and the desirability of their being built on a design more suitable to the locality than that of ordinary Cavalry lines, he would beg to suggest that the Government of India might be addressed with a view to a special grant being sanctioned for their construction.

† Proceedings of Government, No 61, dated 6th January 1890.

No. . *Telephonic message from the Secretary to Government, Military Department, to the Quarter Master General, Madras Army; dated Ootacamund, 10th July* 1890, *No.* 4489.

With reference your 1677-B, dated 5th July 1890, please move Military Works to furnish an amended approximate estimate for construction of the proposed Body Guard hutting lines.

No. . *From Brigadier-General E. H. EYRE, Quarter Master General, Madras Army, to Brigdr.-Genl. A. KENNEY-HERBERT, Secretary to Government, Military Department; dated Ootacamund, 17th March* 1891, *No.* 575-*MW* (*Native Lines—Hutting*).

With reference to your telephone message No. 4489 of 10th July 1890, I am desired to forward, duly approved, two plans and an estimate, amounting to Rs. 30,653, for constructing lines for His Excellency the Governor's Body Guard at Madras; conforming, as far as possible, with the approved plan of huts for a Native Cavalry Regiment after paying due consideration to the desirability of building the lines on a more suitable design than those ordinarily constructed, on account of the propinquity of the site to one of the principal and most frequented thoroughfares of Madras.

2. As already brought to notice in para. 5 of this office letter No. 1677-B, of the 5th July 1890, there are no funds at the disposal of His Excellency the Commander-in-Chief which could be appropriated for the construction of these lines. The annual grant allowed by the Government of India, vide Proceedings of Government, No. 61, dated 6th January 1890, for the construction, repair and purchase of lines being already appropriated for some years to come to meet the cost
