From Joseph Tagine, Executive Engineer
Kotma Canal
To the Superintending Engineer
Circle dated 22nd March 1891 No. 2,580

I have the honor to send herewith an applica-
tion in usual form for the local purchase of certain
European stores for the duction of Government
Canal Works. I would ask for your special sanction on the
ground of urgency & economy to my immediate
obtaining the following in part of the
above indent of Government
(a) Vacuum Oil for machinery
(b) Rolled iron bars for the Record
room in Collectors Cutchery, Bunder.

2588/3

About 2 months ago I purchased 1 Cask of
vacuum oil as I understood it to have the
following advantages.
1st That it entirely replaces lubricants such
as grease, cocoanut oil, castor oil, lamp oil.
2nd That being a mineral oil, it is not
suitable for any other purposes such as cooking
and that it was cheaper.
The oil has now been in use for one month
and I find it about 40 to 50% cheaper than
old methods.
Taking the Steam Launch as an example for
the working days of 1½ hours in the month of
Sept. lamp oil, cocoanut oil & grease to the
quantity of 25 4-2-0 was consumed which gives a rate
of Rs 1-4 per hour while for 8 days work on the
launch for about aggregating 36 hours only 4-7 4
of the vacuum oil was used or at a rate of 0-2-0
per hour. The saving has been probably greater in
the case of other machinery in the Shops.
I am now issuing the oil to Lascars
for the cleaning of gearings and the probability
now is that the gearings will all the better for
the change.

6.

2522/4

6. On these grounds I hope you will allow this purchase in anticipation of the sanction of your
7 As regards the pulled iron beams and spiral staircase I have the honor to state that there would be a loss of economy in purchasing these by Indent on the India Office paid for as per order is immediately sent out for the local purchase of the required and the staircase there is little chance of the funds allotted for the work being refunded this year — the Estimate has only just received sanction, so the application for sanction of Government could not have been sent in earlier.

Encls: 1.
Appx

No. 1352 K8

Forwarded to the Chief Engineer, P. W. Department, with a request that sanction of Government may be obtained for the local purchase of the English Stores specified in the enclosed statement.

2. Under the circumstances explained by the Executive Engineer, the Undersigned authorized the Executive Engineer to purchase the Stores in anticipation of sanction of Government.
