Bichinopoly division to the Supty.
Engineer office No 571 SL.
15.12.90

25/2

Enclot.

With reference to your endorsement
No 877 TC. of 31.10.90, I have the honor
to submit a statement of materials
such as doors & at the site of the
completed District Jail at Bichinopoly,
and to state that these ^{are} charged off
finally to the District Jail work.
X vide S.O. Estimate Rs 85,244. These materials
No 3275 WD are in the same good state as they
12.12.87 were last year, but they are not
required for any work in the
Division.

2. In your Endorsement No 1124 TC. of
4.3.90 on Mr. Lammie's proposal
as to the disposal of materials at
site you intimated ^{him} to circulate copies
of the list to other Executive Engineer's
and Superintendents of P.W. stores.
This was not done however as Mr.
Lammie waited till the Barracks
works were finished. List was previously
sent round to all Executive Engineer's
by Mr. Grimes and from replies
received it appears that they do not
require any of the things.

3. I now suggest that these may be sold in public auction as there is no probability of their being utilised on works within a reasonable period of time -

No. 1218 to d/ 12 January 1891.
5/12/91

Copy of the Executive Engineer's letter together with copy of the list, is forwarded to the Chief Engineer P.W.D. with an intimation that if the doors &c are sold in auction, they are not likely to fetch their Book values or even one half of it -

Enclost.
1. List.

2. There is no likelihood of the doors &c being required in the Division, and they are not required in any other division in the circle. The undersigned therefore considers that if items 104 (Iron doors and windows) are transferred to the P.W. Stores, then the iron may be utilised, if the doors & windows are not required anywhere else. The other items being comparatively petty, they can be disposed of locally although not to any advantage.

J. Smith Sd/-

Chennai, 21 January 1891.

No. 248.

From

Major D. McNeill Campbell R.E.,
SUPERINTENDING ENGINEER,

V CIRCLE,

258/4

To

THE Chief Engineer
P.N. Department.

Sir,

Enclosures. 1

In returning your endorsement of No. 226C
dated 16th January 1891, I have the honor to
state that as the iron would be of
little use at the P.N. Stores & Workshops
and the cost of carriage of the floors and
windows from Trichinopoly would be
considerable, I think it would be
better if they were put up to auction
but if they do not fetch half their
value, they may then be transfer-
red to the P.N. Stores.

I have the honor to be
Sir
Your most obedt. Servt.
