From

Major G. B. Henderson, R.E.
Executive Engineer
Tanjore Division

To

The Superintending Engineer

Madras

Sir,

I beg to request that you will be pleased to address Government about building a house at Tanjore for the Executive Engineer. Since I arrived in Tanjore four months ago, I have rented a house belonging to Lt. & Qr. Drake Brockman R.E. last March month, I received notice to quit as the house had been sold to Col. to a native who wished to live in it, there had, accordingly been some difficulty about the land which is not freehold and the sale has not been concluded but it is likely

difficulty may be got over my
pay - and I shall be
turned out. There is no
other house available or
likely to be available and
if I am deprived of
this house I must live in
the Bazaar or in tents -
I think that a suitable
residence might be built
for about Ten or twelve
thousand Rupees put if
the idea is disapproved by
Government, I will have
the necessary Plans and
Estimates prepared.

I have &c

SIR,

Enclosures.

I have forwarding herewith Letter No. 3350 dated 22 August 1891 from the Executive Engineer Tanjore, I have the honor to observe that from the circumstances mentioned in that letter, it seems absolutely necessary that a House should be built by Government for the Executive Engineer Tanjore.

A suitable house could be built for about Rs. 12,000 and if to this, Rupees 1000 be added for cost of site,

the

the Rent would be Rs 80
pr month or 10 pr cent of
the pay of a 2d Grade Exe.
Cutive Engineer.

There is no house in Tanjore
available as a Residence
for the Executive Engineer
and there are no private
persons willing to erect a house.

I have the honor to be

FOR ORDERS. whether the proposal to construct a residence for the Executive Engineer Tanjore may be approved and a plan & estimate called for.

under para 985 P.W. Code (as amended by S.O. No 611) when a house has to be built for the occupation of a Govt official its cost must be so regulated that the rental calculated under the rules, will not exceed 8 per cent of the Salary of the

official who will usually occupy it. S.O. No 1045 further modifying the same para, rules that when the occupant may be in any one of several classes or grades, the rent for the purpose of regulating the capital outlay, should be based on the mean of the salaries of the highest & lowest of such grades. The mean of the Salaries of an Executive Engineer 1st grade and 4th grade is Rs 775 and 8 per cent of this is Rs 62. The cost of the building exclusive of the site should therefore not exceed about Rs 9000.
