GOVERNMENT OF MADRAS.
PUBLIC WORKS DEPARTMENT.

Irrigation.

READ—the following paper :—

Despatch from the Right Honorable Her Majesty's Secretary of State for India, to His Excellency the Right Honorable the Governor in Council, Fort St. George, dated India Office, London, 4th December 1890, No. 1., Public Works.

I have received Your Excellency's letter, No. 12, Public Works, dated 18th August 1890, with which you forward the final issue of the budget estimates of the Madras Public Works Department for 1890-91 and also a statement showing the approximate amount of establishment charges applicable to the construction of the Periyár and the Rushikulya projects.

No. 2241 20/1/91

2. I observe from the latter that, on both the works referred to, the proportion which the cost of establishment bears to the value of work executed is higher than the proportion for the Public Works Department of the Presidency as a whole. I presume that the work is being proceeded with with sufficient rapidity to avoid waste in the matter of establishment charges.

3. As some time has now elapsed since the receipt of information regarding the operations on these two important works, I request that Your Excellency will transmit to me reports showing the progress up to a recent date.

Endorsement from the Chief Engineer for Irrigation, dated 12th January 1891, No. 12.

ORDER—dated 28th January 1891, No. 275 W., Public Works.

Ordered that the Secretary of State be addressed.

2. The Chief Engineer for Irrigation will submit as soon as possible after 1st April next a special report on the Rushikulya project showing the progress of the work to the end of the current official year.
