26TH OCTOBER 1891, No. 2822 W., PUBLIC WORKS.

GOVERNMENT OF MADRAS.
PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Military Works.

READ—the following paper :—

From J. W. MARTIN, Esq., Superintending Engineer, VI Circle, to the Chief Engineer, Public Works Department, dated Trichinopoly, 27th September 1891, No. 990 T.C.

With reference to your No. 451 D., dated 25th June 1891, and 866 D. of the 11th September 1891, calling for submission of the report and plans showing the exact nature of the arrangements proposed for the supply of water to the native troops at Trichinopoly, I have the honour to forward copy of letter No. 2293 of the 15th September 1891 from the Chairman, Municipal Council, Trichinopoly, to the address of the Executive Engineer. From this letter it will be seen that the plans and other documents connected with the complete project have not been received by the municipal authorities and that they are all with the Sanitary Engineer. The Executive Engineer is therefore awaiting the receipt of these plans, &c.

ENCLOSURE.

From the Chairman, Municipal Council, Trichinopoly, to the Executive Engineer, Trichinopoly, dated 15th September 1891, No. 2293.

With reference to your letter No. 409 M., dated 10th instant, I have the honour to inform you that the papers therein referred to have not been returned to me, and indeed they may never be. The plans are all lying with the Sanitary Engineer. I can give you if you want a printed copy of Mr. Oldham's report and scheme and the Sanitary Engineer's last letter to Government in which he suggests the reservoir on the rock may be done away with and direct pumping resorted to instead. These are the only papers now available with me of an engineering character; the rest bear upon the financial aspect of the question.

No. 414 S.E.

Forwarded to the Superintending Engineer, VI Circle, Trichinopoly, for perusal and favour of orders in continuation of this office No. 394 S.E., dated 10th instant.

18th September 1891.

(Signed) ROSS THOMPSON, Colonel, R.E.,
Ex. Engr., Trichinopoly division.

ORDER—dated 26th October 1891, No. 2822 W., Public Works.

Communicated, with reference to G.O., No. 2998 W., dated 13th November 1890, to the Local and Municipal Department in view to the Sanitary Engineer being directed to afford the Executive Engineer, Trichinopoly division, such information as may be necessary to enable him to draw up the report and plans required by the Government of India.

MILITARY DEPARTMENT, 28 AUGUST 1891, No. 480.7

GOVERNMENT OF MADRAS.

MILITARY DEPARTMENT.

Cantonments—Water-supply.

Read the following papers:—

No. 166. *Proceedings of the Government of Madras in the Local and Municipal Department; dated 4th May 1891, No. 671-M.*

ABSTRACT.—Passing orders on a revised scheme submitted by the Sanitary Engineer to Government on the water-supply for the town of Trichinopoly.

No. 3267.

Referred to His Excellency the Commander-in-Chief for favour of opinion, with advertence to the concluding sentence of para. 2 of the foregoing order.

2. It is requested that the reply may be submitted through the Controller of Military Accounts.

(By Order.)

OOTACAMUND,
11th June 1891.

(Signed)

A. KENNEY-HERBERT, Brigdr.-Genl.,
Secretary to Government.

To the Quarter Master General.

No. 167. *From Brigadier-General E. H. EYRE, Quarter Master General, Madras Army, to Brigdr.-Genl. A. KENNEY-HERBERT, Secretary to Government, Military Department; dated Ootacamund, 16th June 1891, No. 1623-B (Cantonments—Water-supply).*

In returning Reference Order No. 3267 of the 11th instant, I am desired to state that, as a pure water-supply is most necessary for the troops quartered at Trichinopoly on sanitary grounds, His Excellency the Commander-in-Chief trusts that Government will be pleased to obtain the sanction of the Government of India for the additional cost, both initial and annual outlay, stated to be required, owing to the cost of the scheme having originally been underestimated.

2. I am further to state that it is feared no permanent reduction of the present regimental water establishment can be effected by the introduction of this water-supply scheme for the reasons set forth by the General Officer Commanding Southern District in his letter No. 475-G of the 3rd August 1889, recorded in Proceedings of Madras Government, No. 6144, of 7th September 1889.

No. 168. *Report from Lieut.-Col. C. F. THOMAS, Controller of Military Accounts, to Brigadier-General A. KENNEY-HERBERT, Secretary to Government, Military Department; dated Madras, 1st August 1891, No. 490-G.*

Forwarded, with letter No. 2001-B, dated 24th July 1891, from the Quarter Master General.

2. The Government of India in its letter No. 671-MW, dated 28th March 1889, recorded in Proceedings of Government, No. 2544, dated 15th April 1889,

sanctioned the payment of Rs. 3,000 per annum to the municipality for the supply of pure water under the municipal system for the two Native Infantry Regiments stationed at Trichinopoly, on the condition that a reduction would be effected in the water-carrying establishments maintained by the regiments concerned. But the Quarter Master General represented that any reduction in the number of pucks attached to the regiments would not be conducive to efficiency (*vide* his letter printed in Proceedings of Government, No. 6144, dated 7th September 1889), and this opinion is still maintained (*vide* para. 2 of Quarter Master General's letter under report).

3. The initial cost and working charges to be borne by the Military Department previously estimated* at Rs. 20,350 and 1,400, respectively, are, under the revised scheme now forwarded, stated to be Rs. 29,000 and Rs. 4,000, respectively.

* *Vide* Proceedings of Government, No. 5444, dated 28th August 1890.

4. It is too early in the year for this office to state whether funds will be available under "Contingencies," Grant 14 of the current year's budget estimate, to meet the proposed extra cost.

5. The prescribed reappropriation statement is attached.

From Brigdr.-Genl. E. H. EYRE, Quarter Master General, Madras Army, to the Controller of Military Accounts; dated Ootacamund, 24th July 1891, No. 2001-B (Cantonments—Water-supply).

With reference to your letter No. 2825 of the 17th instant, I am desired to resubmit this office letter No. 1623-B of the 16th June 1891, for transmission to Government, in reply to R.O. No. 3267 of 11th idem, on the subject of the water-supply scheme for Trichinopoly, a revised copy of O.G., No. 671-M, of 4th May 1891, having been received under the above-mentioned Military Department number.

Major and minor heads of account under which the proposed expenditure will fall.	Sanctioned grants for major and minor heads.	Recorded outlay against those grants by latest available accounts.	Proposed reductions in sanctioned grants from which the expenditure will be met.	Explanation if no reappropriation is considered possible. In such cases the urgency and necessity for the outlay must also be explained.
GRANT 14.	1891-92.	Actuals for two months, 1891-92.		
	RS.	RS.		
Miscellaneous	4,55,800	5,57,652	...	It is too early in the year for this office to state whether funds will be available under "Contingencies," Grant 14 of the current year's budget estimate, to meet the proposed extra cost.
Contingencies	80,000	32,563	...	

1st August 1891.

(Signed) C. F. THOMAS, Lieut.-Col.,
Controller of Military Accounts.

No. 169.

ORDER THEREON, 28 August 1891, No. 4807.

Ordered that the foregoing correspondence be submitted to the Government of India with an expression of the concurrence of this Government in the views of His Excellency the Commander-in-Chief as contained in the Quarter Master General's letter above recorded, and with the request that the share of the initial cost and working expenses of the revised scheme of water-supply for the town of Trichinopoly, which has been allotted to the garrison, may be authorized as a Military charge.

2. The attention of the Public Works Department will be invited to para. 2 of Proceedings of Government, No. 5444, dated 28th August 1890, in view to the report and plans called for by the Government of India being submitted at an early date.

No. 170. To the Secretary to the Government of India, Military Department;

13TH NOVEMBER 1890, No. 2998 W., PUBLIC WORKS.

GOVERNMENT OF MADRAS.
PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Military Works.

READ—the following papers:—

G.O., dated 28th August 1890, No. 5444, Military.

From Major-General E. H. H. COLLEN, C.I.E., Secretary to the Government of India, Military Department, to the Secretary to the Government of Madras, Military Department, dated Simla, the 15th July 1890, No. 1715-M.W. (Cantonments—Water-supply).

I am directed to acknowledge the receipt of your endorsement No. 4144, dated 23rd June 1890, submitting correspondence regarding the extension to the Native Infantry lines at Trichinopoly of the water-supply scheme proposed to be undertaken by the local municipality.

2. In reply, I am to state, for the information of His Excellency the Governor in Council, that the payment to the municipality of Rs. 3,000 per annum, sanctioned in Military Department No. 671-M.W., dated 28th March 1889, on account of the water to be supplied to the sepoy lines must be regarded as conditional on the submission of a clear report and plans showing the exact nature of the arrangements proposed for the supply of those lines, and on the understanding that these arrangements meet with the approval of the professional advisers of the Madras Government in the Public Works Department.

	Initial cost.	Working charges.
	RS.	RS.
Municipality ...	2,90,750	20,050
Military Department ...	20,350	1,400
Railway Company ...	48,460	3,350
Total ...	3,59,560	24,800

3. I am also to observe that, from the papers now submitted to the Government of India, the distribution proposed of the estimated cost of the whole scheme appears to be as shown on the margin, and I am to request that, under His Excellency's orders, the Government of India may be furnished with further information on this point.

Order—dated 28th August 1890, No. 5444, Military.

Communicated to His Excellency the Commander-in-Chief for information, with advertence to the correspondence ending with the Quartermaster-General's letter No. 814-B., dated 11th June 1890, in view to the submission of the report and plans called for by the Government of India in para. 2 of their letter above recorded.

2. As the payment to the municipality of the contribution agreed upon is conditional on the arrangements for the water-supply scheme being approved of by the Public Works Department, the papers on the subject will be forwarded to that department for favor of an expression of the opinion asked for in the concluding clause of para. 2 of the foregoing letter.

2822
5

3. The attention of the Local and Municipal Department will be invited to para. 3 of the Government of India letter in view to the further information asked for in respect to the initial cost and working charges of the scheme being furnished.

(True Extract.)

(Signed) A. KENNEY-HERBERT, Brigdr.-Genl.,
Secretary to Government.

From Colonel E. H. EYRE, Officiating Quartermaster-General, to the Secretary to Government, Military Department, dated Ootacamund, 21st October 1890, No. 707 M.W.

With advertence to O.G., No. 5444, dated 28th August last, I am desired to state that the General Officer Commanding Southern District reports that all the information available in connection with the proposed water-supply to the Military lines at Trichinopoly is already contained in Mr. Oldham's report and orders passed thereon, as recorded in Proceedings of Government, No. 3780, dated 7th June 1890. I am also to say that the only plans which have been prepared with regard to the water-supply to the lines were submitted to Government with this office letter No. 912 (Barrack) of the 23rd August 1889, recorded in Proceedings of Government, No. 6144 of 7th September 1889, and referred to in the letter from the General Officer Commanding Southern District, No. 475 G., of the 3rd August 1889, para. 3, which accompanied this office letter above quoted.

2. I am to observe that, in the Commander-in-Chief's opinion, the Executive Engineer, Public Works Department, at Trichinopoly, would be in a better position than the Military authorities to afford the information required by the Government of India, and His Excellency trusts that Government may be pleased to instruct that officer accordingly. The Military authorities will be desired to afford the Executive Engineer all assistance in their power.

No. 6719, Military.

Forwarded to the Public Works Department in view to the Executive Engineer at Trichinopoly being instructed to furnish the necessary information and plans as required by the Government of India.

(By Order.)

FORT ST. GEORGE,
29th October 1890.

(Signed) H. R. SHELLEY, Colonel,
for Secretary to Government.

ORDER—dated 13th November 1890, No. 2998 W., Public Works.

Communicated to the Superintending Engineer, VI Circle, in view to the information called for by the Government of India being furnished by the Executive Engineer, Trichinopoly division.

2. The Government of India requires a clear report and plans showing the exact nature of the arrangements proposed for the supply of water to the Native Infantry lines at Trichinopoly, and these documents can be prepared by the Executive Engineer if the Municipal Council will be good enough to allow him access to the plans and estimates for the proposed water-supply scheme for the town. The Chairman of the Municipal Council will be requested, in the Local and Municipal Department, to afford the Executive Engineer the necessary facilities for examining the papers connected with the general scheme. His Excellency the Commander-in-Chief has already stated that the local Military authorities will be desired to afford the Executive Engineer all assistance in their power.

3. The report and plans should be countersigned by the Chairman, Municipal Council, in token of their accuracy, and they will be submitted by the Superintending Engineer with an expression of his own opinion as to the suitability of the proposed arrangements.
