READ—the following paper:—

Memorandum by the Chief Engineer, Public Works Department.

The undersigned has the honour to request sanction to the increase of the salary of the Superintendent of Workshops, No. I Division, Periyár Project, from Rs. 150 to Rs. 200 per month, with effect from the 1st October 1891.

2. In the scale of establishment attached to the original estimates provision was made for a mechanical engineer on Rs. 500 per month, but this arrangement was afterwards altered and a man of the subordinate class on a salary of Rs. 150 has hitherto been employed.

3. Considerable difficulty has been experienced in obtaining a competent man, and the services of four men in succession have had to be dispensed with for one reason or another; but in Mr. E. R. Logan we appear to have obtained a man, young as he is, who is in every way satisfactory.

4. The work and responsibility of the Superintendent have been greatly increased by the large amount of machinery lately brought into operation, and the undersigned is satisfied that Rs. 150 is not a sufficient remuneration for this work.

5. The late Mr. Taylor some time ago suggested that Mr. Logan's salary should be raised, but the undersigned preferred to wait till the latter had been a year in employment (*i.e.*, till the 1st of January next) before submitting any proposal to Government.

6. The result of his recent inspection of the works has, however, satisfied the undersigned that the increase ought to be given at once, and he accordingly recommends that this be done.

7. A proposition statement in the usual form is not necessary, Mr. Logan having been brought on the temporary Upper Subordinate establishment—*vide* G.O., No. 224 W., dated 23rd January 1891.
