From

North Arcot District Office

25th July 1891

Major C. C. Rawson R. E.,
Executive Engineer
North Arcot District

The Superintending Engineer
4th Circle

Sir,

With reference to G. O. N^o 5250
dated 1st July 1891, I have the honour
to point out that the expenditure
in the North Arcot Division
during 1890-91 on Irrigation, Ravi-
-gation & Agricultural works was
greater than that of any ordi-
-nary Division in the Presidency,
the only Divisions having higher
Expenditure being the three Pro-
-ject Divisions Ruckhikulya &
Periyar N^o 1 & N^o II.

2. Under these circumstances
I request that you will move Go-
-vernment to sanction North
Arcot

being made into a first class
Division and allowed Establi-
ment accordingly.

I have H. P.

Copy. Forwarded to the Chief
Engineer P. H. Department for
the orders of Government. The
work under the head of Irrigation
in the North West District has
been very great during the last
two official years. The extension
and improvements of the Chagar
Ancient System, and the improve-
ments under the Conarypak Bank
Surplus Channel (for which ex-
penditures have been received) will
necessitate larger allotments
in the current and following years,
and the amount of work passing
through the Division office will
necessarily be very largely increased.

It

It is considered that the strength
of the office may therefore be raised
to that of a 1st Class one for the
current and two following years
at least.

Sir,

In returning your endorse-
ment No. 3910 C dated 3 instant, I have
the honor to state that it is proposed
to convert the existing second
class establishment of the Divi-
sion office into a 1st Class one with
the addition of a Cashier.

1. Pro. Statement

2 That the work in the North
Arcot Division office has of late
very considerably increased is an
undisputed fact.

3 The Division progress report
shows that there are 841 works un-
der execution and this number
is increasing daily as more relief
works

works are being opened.

4 As it is, the accounts cannot be rendered to the Examiner on due date. It must be noted as an instance that the whole of the accounts of the Kalahasti Sub Division for a quarter with 800 vouchers were only received in the Division Office on the 14th September.

5 Formerly the Accountant was only allowed a solitary clerk to assist him in the compilation of accounts. Now two clerks cannot cope with the work. In fact the Deputy Examiner of P.W. accounts in his recent inspection of the Division Office expressed his opinion that to enable the Accountant to keep his accounts up to date it was absolutely necessary that he should have the assistance of two clerks. Now even these two clerks are found unable to meet the requirements of the additional work. It will therefore appear very necessary to entertain some temporary

temporary clerks till the famine is over.

6 I beg to add that in Appendix L. to the code it is laid down that the business of Cashier (where there is no Cashier appointed to the Division) should be performed by the Head Clerk. The enormous increase of work does not permit the Head Clerk to attend to the duties of Cashier without prejudice to his other Clerical work. A glance to the classified list will show that the number of subordinates in the North Arcot is more than in any other Special and 1st Class Divisions, even deducting the subordinates specially entertained for famine works.

7 A great number of works under Tank Restoration are in progress and the Cheyar Channel works are also in hand.

8 In these circumstances I have the honor to submit a revised proposition

proposition statement of the office
establishment both permanent
and temporary that it is considered
absolutely necessary for the effi-
cient working of the Division
office and to request you will
be good enough to take steps to ob-
tain thereto early sanction of
Government.

I have the honor to be
Sir,

Your most obedient servant
