No. 173/Ks

Superintending Engineer's Office
II CIRCLE, Bygoose
Dated 19th October 1891.

From,

J. Hannan. Esquire,

Superintending Engineer,

II Circle.

To,

The Chief Engineer,
Public Works Department,
Madras.

Sir,

I have the honor to point out
that G.O. No 2460 W of 14th September 1891
appears to be inconsistent with
G.O. No 3,239 W of 16. 11. 89, where
Government approves of the re-
commendations of the late Account
Committee that printing should
be availed of as much as possible
to lessen clerical labor. The
recent G.O. limits the amount
of printing charges for each
Division that can be sanctioned
by

by the Superintending Engineer
to Rs 45 per annum - without
reference to the varying require-
ments of different Divisions.

+ This is the
average cost per
division as shown
by the accounts
for the past 2 years

2. The charges incurred for
local printing in last official
year in the Eastern Delta Division
of the Kistna amount to Rs 230,
and in this year, I have already
sanctioned estimates for printing
for the Western Delta amounting
to Rs 125. The impracticable
condition is imposed that even
against the small limit of Rs 45,
no bills can be paid without
the countersignature of the Superin-
tendent of the Government Press.
This condition simply amounts to
this - that private firms are to be
asked to undertake printing work
& to accept whatever payment may
be passed by the Press Superintendent.

3. Assuming that the object of the

2883/2

G.O. is not to restrict printing but to
get it done as cheaply as possible,
I have the honor to point out that this
object can, in my opinion, be attained
by drawing up a Schedule of rates
at which the different kinds of printing
ordinarily required can be paid for.
It must, however, be borne in
mind, in drawing up such a
Schedule that small local printing
presses cannot turn out work at
such low rates, as large establish-
ments. Against the extra cost of
local printing, however, can be
set off the almost prohibitive
delay of getting all printing work
done in Madras.

I have the honor to be,
Sir,

Your most obedient servant,

J. Hannan

Supt. Engineer,

24/10/91

2883/3

Read the following:—

From the Superintending Engineer II Circle No 1731 W of 19 Oct. 91-

FOR ORDERS.

Govt. has a press which will do the printing work at a certain rate, & the PWD should use it. It is out of the question to allow PWD to employ private presses at discretion which is what they want. I imagine that they find a lot of things such as covers & which would not be allowed if brought under scrutiny. They get supplies of authorized forms from the Examiners & it must be unauthorized matter which they want to print. I consider it important that the order should be enforced.

W
24 Oct

The limit of Rs 45 for each division was merely that within which charges might be sanctioned by the Superintending Engineer - There is nothing in the orders quoted to prevent further charges being incurred with the sanction of Government.

The undersigned has already expressed his opinion regarding the counter signature by the Superintendent Govt. Press.

B

Non orders

The Government
The Government
considers it important
considers it important
that the orders con-
tained in G.O. 2460 W of
14 September 1891 should
be enforced - The limit
of Rs 45 for each division
is that within which
charges might be sanctioned
by Supts. Engineers. There
is nothing in the orders
quoted to prevent further
charges being incurred
with the sanction of Govt.
When local rates are
high, the printing
should be done in the
Govt. Press.
