MEMORANDUM.

The Chief Engineer has the honor to request that Superintending Engineers will be good enough, as soon as the accounts for March have been closed, to submit statements comparing grants, expenditure, and short outlay in their circles under all heads in the General, Buildings and Roads Branch.

2. The figures should be given by divisions, and the names of officers responsible for short outlay, if any, should be stated in each case, with requisite explanation.

3. The statements, to be of practical value, should be submitted with the least possible delay after the figures are known, and the special attention of Superintending Engineers is invited to this point.

(Signed) R. R. E. DRAKE-BROCKMAN, Lt.-Col., R.E.,

Note for the Honorable Member with reference to his queries on the draft order reviewing the short outlay in the General Branch during 1889-90

The lapses are compared with final grants which represent budget and subsequent allotments less surrenders reported during the year.

2. The term "Revised Estimate" as used in the Examiner's Statement means "final grant".

3. There has be a surrender in 1889-9 of more than 1 lakh of Rupees under the Court of Wards, but the officers concerned have already been censured vide G.O.

The accompanying statements showing the lapses of grants in each Division under all funds in the Buildings and Roads Branch for 1889-90 has been drawn up from the statement showing the budget grants, final grants and actuals for that year as submitted by the Examiner.

The statement exhibits a short outlay of Rs 11,770 against a grant of Rs 17,13,617 under Provincial; and of Rs 28,915 against a grant of Rs 25,61,539 under all funds. The results are very creditable.

All replies to memo No 2071 C, dated 30th April 1890 have come in & the compilation of the statements from the I, II and III Circles has been completed. It has however been found that the statements contain a good number of discrepancies, and that the figures given are in several cases incorrect. In some instances the total grants for each division, under each fund and the lapses thereunder are not given, all that is shown being merely the individual works on which short outlay has occurred. In such cases also the Supg Engr reports that the short outlay has been covered by excess outlay on some other work not included in the S. E's statement. The statements were called for in order that the total lapses under each fund and division may be ascertained, but as far as I can see the statements do not at all answer the purpose [illegible] for of the Supg Engineers in noting the short outlay in certain cases state that further outlay will be shown in the supplemental accounts. To be of any real use a statement such as the one which is being compiled should be very correct; for, then only can proper decisions be arrived at. It is therefore suggested that further action on the statements should be deferred pending receipt of reply from the Examiner to this office note No 2648 C, dated 14th June 1890, calling for a statement (after the supplemental accounts have been closed) showing the budget grants, final grants, and actuals under all funds during 1889–90. On its receipt an abstract will be drawn up showing the short outlay based on supplemental accounts and the explanation for lapses as given by the Supg Engrs in their statements.

With reference to the Hon's remarks on the accy. note, it is submitted that the figures given are not confined to results under Provincial funds only, but relate to all funds in the Bldgs. & Roads Branch.

Of the original grant of Rs 23,00,000 under Provincial, 16 lakhs were set aside for "works", the remainder going to establt. & tools & plant – with the allotment of Rs 28000 for famine works, the Provincial grant for works was therefore Rs 16,28,000.

The grants for works under all funds as shown in the final issue of Budgets for 1889–90 were as follows

Imperial Civil	Rs.	170
Imperial Military	-	548900
Provincial	— "	1628000
Incorporated Local	"	49625
Total	Rs.	22,43,525

The final grants in the Progress Reports total up, under all funds, to Rs 20,21,588 - The difference between this & the budget grants was due mainly to modifications of grants sanctioned during the year.

The Budget grant of Rs 16,00,000 for works under Provincial was subsequently increased to Rs ~~[illegible]~~ 17,71,500 by transfers from establt. & suspense, & by the addl. grant for famine works.

+ Of this grant nearly Rs 57,000 was surrendered [illegible]

The final grants as shown in the Progress reports under Provincial, total up to only Rs 15,99,221 - This difference too must be due to modifications sanctioned during the year - ~~1728~~ 288

I have called on the Budget Branch for explanation of differences, this will be received in a day or two -

Urgent reminders have been sent from Madras calling for replies to memo by 2071 C of 30-4-20 -

I am afraid however that we shall not be able to get at actual results all round until the Finance Accounts are received from the Ex. - The supplementary acct. & final booking often make material difference in the results as regards expenditure & lapses.

(1) These excesses are compared I suppose with final grants i.e. budget & supplemental grants, less surrenders?
(2) What is the meaning of "Revised estimate" in the Expd. statement.
(3) In that statement there appears to be a surrender greater than 1 lakh under C. of Wards.
Mcy

Recorded with the remark that the short outlay for the year 1889-90, amounts to Rs 11,770, against a grant of Rs 17,13,619 under Provincial; and to Rs 28,915 against a grant of Rs 2,56,539 under

under all funds.
The results are
~~very~~ creditable
on the whole.
