— do — do — " 28 Ew. of 17 Jan 1891

As the iron tank
procured for the water
supply of the Lawrence

Asylum is not required
under the revised estimate
for the scheme sanctioned
in G.O. No 2274 W of 22
August 1890, its cost with
all incidental expenses
(Rs 1901) will be met from

Provincial

Provincial funds. A sum of Rs. 1000 having been provided in the revised estimate on account of the cost of the tank, the estimate will be reduced by that amount.

2. The Govt. understands that the tank can probably be utilised in the proposed workshop for the Madras College of Engineering, and the Supdy. Engineer to Civil will see that the compound parts are painted and kept in good order, so that there may be no difficulty with respect to its transfer to Madras when required. A sketch of the tank with details should be supplied to the Comdg. Engineer to assist that officer in making the estimate for the College workshop.
