3. As the revised estimates of quantities in connection with the type designs for taluk cutcherries have been issued, it should be practicable to utilise at once a large portion of the grants for the offices at Tiruchengód and Tirupatúr on the collection of materials and subsequently to spend a further sum on actual work before the close of the official year. A sum of Rs. 5,000 only has therefore been withdrawn from each building, leaving a similar amount available for expenditure.

4. The estimate for constructing a District Munsif's Court at Karkal does not appear to have been submitted for the sanction of Government. The Superintending Engineer, IV Circle, will explain the cause of delay. Pending receipt of this explanation, the surrender of the grant for the work will be held in abeyance.

6. The surrender of the grants for constructing groynes to prevent erosion of sea at Vypeen and protecting the foreshore at Cochin will, with the usual percentage charges for establishment and tools and plant as shown in the margin, be replaced at the disposal of the Financial Department.

7. The Quartermaster-General having reported in para. 4 of his letter No. 2058 M.W., dated 9th September 1891, printed with G.O., No. 2619 W., dated 20th September 1891, that the balance of the estimate for constructing sheds for transport animals at Calicut would be provided from the reserve in the budget estimate for 1892–93, there is no necessity to make a special allotment during the current official year for which the sanction of the Government of India would have been required.

8. The sum of Rs. 180 surrendered from the grant to the Coimbatore division under Imperial Civil Works, Telegraph Repairs, will be resumed and credited to the reserve under that head.

2977/2

9. Application will be made to the Government of India for the transfer, as shown below, of Rs. 1,240 from Telegraph to Postal Repairs to meet the requirements of the Coimbatore and West Coast divisions:—

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Account.

READ—the following paper :—

From Brigadier-General E. H. EYRE, Quartermaster-General, Madras Army, to the Secretary to Government, Public Works Department, dated Ootacamund, 9th September 1891, No. 2058-M.W.

I am desired, by His Excellency the Commander-in-Chief, to forward, for submission to Government, the schedules of Military works requirements for stations in this Presidency which continue to remain under the control of the Public Works Department in connection with the Imperial Military works budget estimate of the ensuing financial year. The schedules of requirements of all other stations in this Presidency, which have been placed in charge of the Military Works Department, have been forwarded to the Chief Engineer, Military Works, for transmission to the Director-General of Military Works.

2. The works have been classified in the usual manner, those enumerated in the class C list being such major works as are required in addition to those printed in the schedule circulated with the final issue of the current year's budget estimate, as it will stand after the works enumerated in list D have been removed from it.

3. The only major work entered in the class A list, for which presumably an allotment will be required during the coming year, is that of constructing new barracks with subsidiary buildings at Calicut, for which a revised estimate was recently approved by His Excellency and submitted to Government in the Military Department for sanction. The amount entered in the list, viz., Rs. 3,440, represents the difference between the original and revised estimates.

Re-roofing hospital wards at Trichinopoly (*vide* G.O., No. 347 W., of 6th February 1891).
Sheds for transport animals at Calicut (supplemental estimate)—*vide* G.O., No. 1414 W., of 25th May 1891.

4. No allotments are proposed for the marginally-noted items, as it is understood the balance of the estimates for their completion will be provided from the reserve that will be held by Government for incomplete major and minor works.

5. Four items have been included in the class B list, for all of which His Excellency hopes it will be found possible to secure allotments during the current financial year, as their early execution is considered very desirable.

6. In accordance with G.O., No. 751 W., of 14th March 1891, a detailed list of minor works is not submitted with this schedule. The total cost of such works may be estimated roughly at Rs. 40,000, towards which His Excellency would recommend a lump sum provision of Rs. 4,000 being made, and this sum has accordingly been entered in the schedule of requirements.

ORDER—dated 30th September 1891, No. 2619 W., Public Works.

Ordered that the schedule of requirements for 1892–93 on account of Military works at stations in charge of the Public Works Department be forwarded to the Government of India, Military Department.

2. A revised estimate of Rs. 35,000 has been sanctioned * for the construction of the new barracks at Calicut and the expenditure on the work up to 1890–91 was Rs. 10,041. A sum of Rs. 21,560 having been provided for the work in the current year's budget, the balance of the estimate, viz., Rs. 3,399, has been applied for in the schedule.

* G.O., No. 2562 W., dated 23rd September 1891.

3. As His Excellency the Commander-in-Chief considers that the early execution of the four class B works included in the schedule is very desirable and hopes that it may be found possible to secure allotments for them during the current financial year, the Government of India will be requested to provide a special grant, if possible, to admit of the works being commenced during 1891–92.

4. The full amount of the sanctioned estimate for re-roofing hospital wards of the 1st Pioneer lines at Trichinopoly was allotted in G.Os., Nos. 1707 W. and 2081 W., dated 25th June and 3rd August 1891, respectively. The grant required for the completion of the sheds for transport animals at Calicut will be provided from the reserve to be maintained for incomplete major works.

5. The Government of India having decided in its letter No. 604 M.W., dated 7th March 1891, printed with G.O., No. 830 W., dated 21st March 1891, that the control of the grants for all minor and petty works of the Military Works Department in India, whether situated within Public Works or Military Works divisions, should be vested in the Director-General of Military Works and that the expenditure incurred by the Public Works Department should be transferred to, and be finally adjusted by, the Examiner of Military Works Accounts, no provision has been made in the schedule on account of minor works.

6. The Superintending Engineers concerned will lose no time in submitting, for sanction, plans and estimates for the unsanctioned works included in the schedule.
