No. 2961

From

Henry Swin, Esq., C.I.E.,

Consulting Architect

to the Government of Madras,

To

The Chief Engineer

Public Works Department.

Sir,

Enclosures.

With reference to para 3 of G.O. No. 2704, dated 13th October 1891, I have the honor to report that the first expectation of progress on Victoria Technical Institute was too sanguine and that after carefully going into the matter I find that the sum of 50,000 must be adhered to. In the first instance so much appropriation as 20,000 should not have been asked for, the mistake was in over estimating the progress that could be made. a great deal was spent in the past official year in purchasing materials which are now being worked up so that only the labour on these can be shown as expenditure in the current year.

2.

There have been difficulties which were not anticipated in connection with manufacture of the Terrazzo which largely

enters into the ornamental portion of the
buildings and which retards its construction
but these I hope will be got over when the
rains have ceased, and every effort will be
made to push on so as to utilize the grant
and should it be possible to spend, more
allotment will be asked for meanwhile it is
wiser now to make the surrender of 50,000.

I have the honor to be

Sir

Your Most Obedient Servant
