From Major D. McN. CAMPBELL, R.E., Superintending Engineer, V Circle, to the Chief Engineer, Public Works Department (through the Examiner, Public Works Accounts), dated Chepâk, 16th March 1891, No. 123 W.

I have the honor to forward an indent on the Director-General of Stores in England for cast iron gates, &c., required by the Consulting Architect to Government for Government House, Madras.

ENCLOSURE.

REPORT to accompany indent for stores required for Government House, Madras.

The cost of these gates and lamp pillars is included in the estimate sanctioned in G.O., No. 508 W., dated 21st February 1891. Gates of this description can be procured from England at a lower cost than can be manufactured in this country as they are stock patterns. If made here the cost of the pattern would be very great; besides ornamental castings are a speciality and they can be procured in England of a much better finish than they could be in India.

2. I certify that funds to meet the estimated outlay in England in connection with this indent during the year 1891-92 will be provided by the local Government to the extent of £127-16-11 in the estimate of the Public Works Department for that year.
