19th October 1891. Superintending Engineer, IV Circle.

Office-note from the Officiating Examiner, Public Works Accounts, dated Madras, 5th November 1891, No. 6802.

The sanction of Government is necessary to write off the famine tools from the returns under Public Works Department Code, para. 1713 A.

2. If the tools are not to be used in connection with Provincial works, they should be transferred with value. It is presumed that they were required for relief works by the Collector of Salem.

ORDER—dated 13th November 1891, No. 3038 W., Public Works.

It is observed that the tools have been taken for relief purposes, which is what they are kept for, and they will no doubt be returned when no longer required by the

Collector. There is thus no necessity for writing them off the returns. For purposes of stock-taking, a certificate by the Collector will be accepted. When the tools are returned, proposals can be made for dealing with any deficiency which may be found.

ENCLOSURES.

SUBJECT.

Famine tools.

Requests to accord sanction to write off certain — from the Return of Tools and Plant.

The tools are taken for relief purposes which is what they are kept for, and they will no doubt be returned when no longer required by the Collector. In such circumstances it seems absurd to write them off the returns. For purpose of taking stock Comm the Collr's receipt for them be accepted and writing off be confined to any deficiency found when they are returned.
