16TH NOVEMBER 1891, No. 3068 W., PUBLIC WORKS.

3068
1

GOVERNMENT OF MADRAS.
PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

READ—the following paper :—

G.O., dated 4th November 1891, No. 933, Public.

Read—the following paper :—

From the Commissioner of Police, Madras, dated 15th August 1891, No. 59.
From the Superintendent, Government Central Museum, dated 15th August 1891, No. 544.

Proceedings of the Board of Revenue (Land Revenue), dated 23rd October 1891, No. 7542.

Resolution—dated 23rd October 1891, No. 7542.

2. The Superintendent of the Government Central Museum will doubtless report to Government on the archaeological value of the carvings and coins disclosed by the erosion and as to the desirability of making any further excavations.

3. As regards the need for taking any active steps to preserve the sea-shore from further erosion, the Public Works Department might be ordered to report.

4. The coins are submitted to Government; they or their value as the Superintendent thinks best might be returned to the finders and purchasers.

Order—dated 4th November 1891, No. 933, Public.

Recorded.

2. The property found should be dealt with by the Collector under the Treasure Trove Act.

3. The Resolution of the Board of Revenue will be communicated to the Public Works Department with reference to para. 3.

(True Extract.)

(Signed) N. S. BRODIE,
Ag. Assistant Secretary.

Note by the Chief Engineer, Public Works Department.

I inspected the place in August last and found that the erosion had entirely ceased, and there seemed then, and seems now, no immediate danger of its beginning again.

2. Should it show any tendency to recur, the best method of protecting the ground would probably be to build two or three short groynes at right angles to the shore, but as neither the ground or the buildings which stand on it are the property of Government, there appears no occasion for any action on the part of the latter.

(Signed) J. PENNYCUICK, Colonel, E.R.,
Chief Engineer, P.W.D.

ORDER—dated 16th November 1891, No. 3068 W., Public Works.

His Excellency the Governor in Council agrees with the view of the Chief Engineer.

Note by the Chief Engr. Public Works

Department

Read Proceedings in the Public
Department No. 933 of 4th November/91.

I inspected the place
in August last and
found that the erosion
had entirely ceased,
and there seemed
then, and seems now
no immediate
danger of its beginning
again.

2. Should it show
any tendency to

recor the best method
of protecting the ground
uld probably be to
build two or three
short groynes at right-
-angles to the shore,
but as neither the
ground or the build-
-ings which stand
on it are the property
of Government, there
appears no occasion
for any action on the
part of the latter-
