Letter from the Govt. of India No. 267-A
CW of 18 Novr. 1891

It is observed that a large portion of the amount referred to by the Govt. of India, is made up of allotments to works, the type designs for which have been, or are still, under revision. This will be apparent from the detailed statement printed as an appendix to this order. There are, however, several other works, the estimates for which should apparently have been laid before Govt. long since, and Superintending Engineers concerned will now endeavour to expedite the

the disposal of these
estimates, specially
reporting all cases of
undue delay either
by Public Works or
other officers.
